

Description of the RICS Building Survey Service

The service

The RICS Building Survey Service includes:

- a thorough inspection of the property (see "The inspection"); and
- a detailed report based on the inspection (see "The report").

The surveyor who provides the RICS Building Survey Service aims to:

- help you make a reasoned and informed decision when purchasing the property, or when planning for repairs, maintenance or upgrading the property;
- provide detailed advice on condition;
- describe the identifiable risk of potential or hidden defects;
- where practicable and agreed, provide an estimate of costs for identified repairs; and
- make recommendations as to any further actions or advice which need to be obtained before committing to purchase.

Any extra services provided that are not covered by the terms and conditions of this report must be covered by a separate contract.

The inspection

The surveyor carefully and thoroughly inspects the inside and outside of the main building and all permanent outbuildings, recording the construction and defects (both major and minor) that are evident. This inspection is intended to cover as much of the property as physically accessible. Where this is not possible an explanation is provided in the "Limitations to inspection" box in the relevant sections of the report.

The surveyor does not force or open up the fabric without owner consent, or if there is a risk of causing personal injury or damage. This includes taking up fitted carpets, fixed floor coverings or floorboards, moving heavy furniture, removing the contents of cupboards, roof spaces, etc., removing secured panels and/or hatches or undoing electrical fittings. The under-floor areas are inspected where there is safe access.
