

A journey of discovery highlighting procurement efficiencies and identifying new practices

Why CIPS Corporate Certification?

The organisation wanted to ensure its processes were being conducted in compliance with an approved industry standard, as well as identifying any gaps in performance.

It also wanted to confirm its relationship with suppliers, making sure they were offering value for money and favourable terms.

The results

Thanks to undergoing a procurement health check as a result of CIPS Certification, we have a number of positive benefits of understanding processes and technologies. The assessment has allowed the organisation to identify any possible gaps, introducing new processes to resolve these. This process is now to focus on the value-adding areas of the company. The accreditation from an internationally recognised auditor has raised their procurement function profile, both internally and externally, highlighting their commitment to procurement practice.

The benefits

- **Cost savings:** The certification is part of a company-wide effort using initiative
- **Standardising:** Professional procurement as the certification means that all staff are now trained to the same level
- **Efficiency:** One of the benefits of the Certification was to ensure procurement by the business of all of the company's activities, which has now been achieved
- **Competitiveness:** Recognition of its high standard of procurement practice has raised the company's standing within the industry.

ABOUT POLARICE

Polarice is a major specialist company based in India, with a fleet of ice-based aircraft. Managed internally, the company is a public listed company on the National Stock Exchange and employs 100 people.

THE BACKGROUND

The procurement function at Polarice is critical to support operations. The role of the department is to buy material and services for its fleet of assets, including material, equipment and services, spare equipment and spares and support services globally.

Having more than a specialised company with a fully operational fleet of assets, Polarice quickly realised some of the different set of procurement and supply challenges they were facing and needed to find a pathway to manage these.

CIPS Corporate Certification Standard

Globally recognised, CIPS Corporate Certification Standard is the only independent, internationally recognised procurement specific assessment of its kind. Focusing upon procurement's procurement and supplier management procedures in organisational terms, it highlights where improvements and efficiencies can be achieved, ensuring that processes, systems and resources support the procurement function and maximize value through and engagement influence.
