The Geek Way Andrew McAfee, 2023-11-14 The Economist s Best Books of 2023 Forbes Top 10 Business Books of 2023 Financial Times Monthly Best Business Books to Read Pick In this handbook for disruptors Eric Schmidt The Geek Way reveals a new way to get big things done It will change the way you think about work teams projects and culture and give you the insight and tools you need to harness our human superpowers of learning and cooperation What is being geeky It s being a perennially curious person one who s not afraid to tackle hard problems and embrace unconventional solutions McAfee shows how the geeks have created a new culture based around four norms science ownership speed and openness The geek way seems odd at first It s not deferential to experts fond of planning and process afraid of mistakes or obsessed with winning But it explains everything from why Montessori babies turn out to be creative tinkerers to how newcomers are disrupting industry after industry and still just getting started When all four norms are in place a culture emerges that is freewheeling fast moving egalitarian evidence driven argumentative and

autonomous Why does the geek way work so much better McAfee provides an original answer because it taps into humanity's superpower which is our ability to cooperate intensely and learn rapidly By providing insights from the young discipline of cultural evolution McAfee shows that when we come together under the right conditions we quickly figure out how to build reusable spaceships and self-correcting organizations Under the wrong conditions though we create bureaucracy chronic delays cultures of silence and the other classic dysfunctions of the Industrial Era Mixing cutting-edge science history analysis and stories that show the geek way in action McAfee offers a new way to see the world and empowering tools for seizing the big opportunities of today and tomorrow Interpreting Food at Museums and Historic Sites Michelle Moon, 2015-11-19

Food is such a friendly topic that it's often thought of as a hook for engaging visitors a familiar way into other topics or a sensory element to round out a living history interpretation But it's more than just a hook it's a topic all its own with its own history and its own uncertain future deserving of a central place in historic interpretation With audiences more interested in food than ever before and new research in food studies bringing interdisciplinary approaches to this complicated but compelling subject museums and historic sites have an opportunity to draw new audiences and infuse new meaning into their food presentations You'll find A comprehensive thematic framework of key concepts that will help you contextualize food history interpretations A concise evaluative review of the historiography of food interpretation Case studies featuring the expression of these themes in the real world of museum interpretation and Best practices for interpreting food Interpreting Food at Museums and Historic Sites offers a framework for understanding the big ideas in food history suggesting best practices for linking objects exhibits and demonstrations with the larger story of change in food production and consumption over the past two centuries a story in which your visitors can see themselves and explore their own relationships to food This book can help you develop food interpretation with depth and significance making relevant connections to contemporary issues and visitor interests **Topologies of the Classical World in Children's Fiction** Claudia Nelson, Anne Morey, 2019

Drawing on a cognitive poetics approach to reception studies this volume examines the use of spatial metaphors palimpsest map and fractal to organize the classical past for preteen and adolescent readers arguing that these reflect different modes in children's literature and encourage different cognitive effects in readers Construct Iain Borden, 2025-12-09 Construct introduces a new category of architecture and engineering in our cities These structures are highly visible yet often ignored large scale and built without traditional designers They are characterised by substantial technical innovation and expertise embedded in the everyday lives of thousands of urban citizens and serve as embodiments of cultural and political meanings These constructions represent an overlooked but significant aspect of our urban landscape combining technical advancement with cultural significance despite their often anonymous design origins The opening chapter introduces Construct as an architectural academic and methodological concept including its interdisciplinary approach combining history critical theory ethnography and visual studies Six independent chapters then explore specific recent manifestations around the world the

resund bridge between Copenhagen and Malm tower cranes in Dubai Shibuya pedestrian intersection in Tokyo Venice skatepark in Los Angeles Limehouse Link tunnel in London and the Singapore Flyer observation wheel in Singapore Each is interpreted in its own context and as a manifestation of its shared architectural typology worldwide Construct will appeal to those interested in the architecture urbanism and experience of contemporary cities worldwide and particularly those working in the fields of architecture media studies planning sociology and urban geography
