Expert Budgeting Tips Guide For Creators 38614:

The Creative Professional's Guide to Money Ilise Benun, 2011-02-04 The Creative Professional's Guide to Money teaches creatives everything they need to know about the financial side of running a creative business. Creatives which include anyone promoting their own creative services: designers, copywriters, photographers, illustrators, interior designers, web designers, and more, are great at their work but when it comes to running the financial side of their business, most would rather not talk about it. This book focuses on proven techniques and resources used by a wide range of successful creatives to manage their business finances. Expert advisers are interviewed on topics such as accounting, taxes, contracts, and financial planning. Using examples, case studies, and real life stories from actual creatives, this book addresses: How to build the financial structure of a creative business from the ground up; How to set up and achieve long term financial goals and plan for a prosperous retirement; Common financial mistakes small business owners make and how to avoid them; How to handle taxes and insurance; How to perform day to day accounting tasks; How to create a budget and adhere to it; What to charge for work and how to determine a profit margin; How to talk about money with clients and prospects. *How to Create a Budget* Allison Wise, 2015-04-19 Are you a one day millionaire every payday? One day millionaires are folks who feel they can splurge on anything and everything on the day they get their pay check. But then after a few days they find themselves broke and needing to scrimp on what's left, barely making ends meet until the next pay check comes. Even if you aren't this way, you probably know at least a few that are. Most of us are more mindful of our expenses and try to be careful with our purchases. But the thing is, sometimes we still find ourselves asking where the money went and how we can make what's left last. I've been that way too for many paydays in the past until I started using the budgeting tips I am sharing with you in this book. I'm going to show you how to assess your monthly income and expenses and how to use that to create a budget that you can easily follow and even tweak a bit if you need extra spending money. You will learn how to create long term and short term financial goals in order to get out of the cycle of overspending, which will result in a growing savings or investment account. So if you're ready to ensure that you and your family will have a healthy financial future, let's get started today.
