made you change the way you see and behave in the world For me Hip Hop is positive It has been a positive influence in my life taking the place of support systems that I did not have access to Hip Hop can also have negative impacts Hip Hop has been taken to court and accused of being able to incite murder and instigate deviance In 1995 Tupac Shakur rapper and revolutionary figure was sued by a slain Texas State Trooper whose family claimed that Tupac s lyrics incited violence against police officers No other genre of music except for indigenous dance and or dance movements like the Ghost Dance has created this type of presence When we look at Hip Hop with a critical gaze we realize that its intentions are to show us where we came from and how resilient we are as people Music dance storytelling and art are all aspects of Native American culture that teach a person how to live their life in balance and how to make decisions for the future As Melissa K Nelson Anishinaabeg writes in *Original Instructions Indigenous Teachings for a Sustainable Future* Native stories include origin legends and history famous speeches and epic poems songs the teachings of spirit mentors instructions for ceremony and ritual observations of worlds and storehouses of ethno ecological knowledge Hip Hop tells the story of people who have faced severe trauma poverty marginalization genocide slavery and colonization and have survived it with eminence and pride Native Hip Hop artists use Hip Hop in many ways but more often than not they use Hip Hop as a means to re claim their history and remember the strength of their people As the title suggests this dissertation will examine all four elements of Hip Hop DJ MC Graffiti Artist Dancer B boy while paying special attention to the Native American Artists that participate in these elements It will also emphasize relationships between Hip Hop and Native Americans This dissertation is intended to open up a dialogue about Hip Hop that is not entirely grounded in African American Studies but draws on theories and issues present in Native American Studies in order to create relationships between these theories and issues Often this dissertation will divert to include specialized topics that may seem irrelevant but will hopefully allow the reader to complete the circle of information presented This is how I have chosen to research and write about Hip Hop in the field of Native American Studies I intentionally hope that it creates a sense of interrelatedness that is present in Indigenous epistemologies and in the theories that are taught and learned in the field of Native American Studies *The Original Instructions* Manitonquat,2009-06 I appreciated so much having an opportunity to read your book The chapter that especially meant a great deal to me were the chapters related to the black male in today s society your perspective writing was sensitive and to the point and easily understood It will provide good reading for any audience Dawin May Senior Vice President of community affairs and Development National City Bank Once again the author has show this commitment to strengthen the family What I appreciate most about this book is the focus he give to the struggle of the black male Secondly Hitchens does a good job of incorporating new knowledge into the struggle of being Black in America Rev Timothy Shelton *Reflections on Success* Centre for Indigenous Environmental Resources,2007 **Ancient Teachings of the Present** T.S Avini,2025-08-01 *Ancient Teachings of the Present* Applying Indigenous Insights to Today s Challenges invites readers into atransformative journey

Metanoia Mon Amour Nicolás Gadda Thompson, 2024-06-28 Today more than ever we need to regain a certain clarity to re integrate knowledge to converge in ideas to return to Oneness Sacred geometry and introspective psychonautics are lost arts that we must recover Regenerative development and systemic thinking are new approaches that we must incorporate Thinking Reality as networks that connect nodes and not as isolated elements in linear sequence is the most concrete basic proposal that the reading of this book offers us Acting generatively as a consequence will be one of the most demanding and relevant challenges of our present time It is on this basis that the following proposal is developed to recover lost knowledge to incorporate it into our mental frameworks and to integrate it with the exercise of modern science and the advent of new technologies It is time to recognize the

symbolic and at the same time pragmatic capital that we inherited from our ancestors and it is also time to celebrate the talent and vocation of those who today are leading disruptive development in all fields of knowledge This proposal is not just an exercise in historical or social vindication nor an ode to novelty for the sake of novelty but rather promotes the key guidelines for the design of a roadmap that will allow us to identify and apply the right solutions to the multiple challenges facing our overwhelmed humanity today This book is intended for freethinkers of all ages of all colors and from all corners of the globe it is a wake up call that comes from deep within but it is also a call to action that aims at the most universal
