Reflections On Man And The Human Condition:

Reflections on Man and the Human Condition John Bourman,1995-12 *Reflections on the Human Condition* Eric Hoffer,1973 This collection of aphorisms and philosophical comment represents Eric Hoffer at his best It offers stunning insights that strike home with startling frequency often most uncomfortably it has a fine unity a well defined theme That some of the statements invite argument and questioning is inevitable and stimulating Here is a book of the wry epigram and the icy aphorism which made his earlier books so appealing and gained for him a wide audience Publisher description To Relieve the Human Condition Gerald P. McKenny,1997-08-21 CHOICE 1998 Outstanding Academic Books This book argues that standard forms of bioethics support the technological utopian quest of medicine to eliminate suffering and bring the body under the rule of our choices and desires This quest raises urgent ethical questions rarely addressed in the dominant approaches to bioethics McKenny puts forth an alternative agenda arguing that the task of bioethics is to explore the moral significance of the body as it is expressed in the discourse and practice of moral and religious traditions *Meditations on the Human Condition in an Imperial Age* Irina V. Boca,2012-10-12 The concept of empire contains features that are both irreducibly spectral and terrifyingly real With much of both aspects prevailing at subliminal levels it is nearly impossible for the casual observer to think through the maze of contradictions and constitutive forces inherent in the imperial system In her latest work of nonfiction *Meditations on the Human Condition in an Imperial Age* author and political philosopher Irina V Boca uses her expertise and research to help readers analyze the presence of empire as an indelible contemporary political force This intricate work unravels the Gordian knot of imperial politics and allows the reader to consider overlapping concepts from multiple perspectives finally making it possible for the general audience to get all the facts From post Hegelian philosophy to political science and popular culture the author has identified the intricately woven forces of imperial politics and invites readers to reconsider any easy location of power and any clear cut path to resistance or liberation *A Critical Reflection on Automated Science* Marta Bertolaso,Fabio Sterpetti,2020-02-05 This book provides a critical reflection on automated science and addresses the question whether the computational tools we developed in last decades are changing the way we humans do science More concretely Can machines replace scientists in crucial aspects of scientific practice The contributors to this book re think and refine some of the main concepts by which science is understood drawing a fascinating picture of the developments we expect over the next decades of human machine co evolution The volume covers examples from various fields and areas such as molecular biology climate modeling clinical medicine and artificial intelligence The explosion of technological tools and drivers for scientific research calls for a renewed understanding of the human character of science This book aims precisely to contribute to such a renewed understanding of science

Persuasion, Reflection, Judgment Rodolphe Gasché, 2017-04-03 Gasché expounds on Aristotle Heidegger and Arendt in a major interpretative achievement that underscores what is at stake in political thought Notre Dame Philosophical Reviews As one of the most respected voices of Continental philosophy today Rodolphe Gasché pulls together Aristotle's conception of rhetoric Martin Heidegger's debate with theory and Hannah Arendt's conception of judgment in a single work on the centrality of these themes as fundamental to human flourishing in public and political life Gasché's readings address the distinctively human space of the public square and the actions that occur there and his valorization of persuasion reflection and judgment reveals new insight into how the philosophical tradition distinguishes thinking from other faculties of the human mind Here Rodolphe Gasché is at his best rigorous scholarly creative forceful laser focused on the issues at stake learned thoughtful and original He demands much of his readers but reading his work is rewarding in ways that can be profoundly affecting Dennis J Schmidt author of Between Word and Image Rodolphe Gasché has long been one of the most meticulous readers of texts on the philosophical scene and here he once again offers a master class in how to do philosophy through interpretation Robert Bernasconi author of How to Read Sartre
