Rajan,2011-08-08 From an economist who warned of the global financial crisis a new warning about the continuing peril to the world economy Raghuram Rajan was one of the few economists who warned of the global financial crisis before it hit Now as the world struggles to recover it s tempting to blame what happened on just a few greedy bankers who took irrational risks and left the rest of us to foot the bill In Fault Lines Rajan argues that serious flaws in the economy are also to blame and warns that a potentially more devastating crisis awaits us if they aren t fixed Rajan shows how the individual choices that collectively brought about the economic meltdown made by bankers government officials and ordinary homeowners were rational responses to a flawed global financial order in which the incentives to take on risk are incredibly out of step with the dangers those risks pose He

traces the deepening fault lines in a world overly dependent on the indebted American consumer to power global economic growth and stave off global downturns He exposes a system where America s growing inequality and thin social safety net create tremendous political pressure to encourage easy credit and keep job creation robust no matter what the consequences to the economy s long term health and where the U S financial sector with its skewed incentives is the critical but unstable link between an overstimulated America and an underconsuming world In *Fault Lines* Rajan demonstrates how unequal access to education and health care in the United States puts us all in deeper financial peril even as the economic choices of countries like Germany Japan and China place an undue burden on America to get its policies right He outlines the hard choices we need to make to ensure a more stable world economy and restore lasting prosperity **IMF Survey** International Monetary Fund,2006 **The Economist** ,2010 **Working Paper Series** ,2003 *Business and Financial Conditions in the Third Federal Reserve District* ,2003 **The Business Review** ,2011 **Dead Aid** Dambisa Moyo,2009 Has this assistance improved the lives of Africans No [Banks as Catalysts for Industrialization](#) Marco Da Rin, Thomas Hellmann,2001 [IMF Staff Papers](#) ,2010 *Conference Series* ,1995-06
