Rem Koolhaas:

Delirious New York Rem Koolhaas, 2014-07-01 Since its original publication in 1978 *Delirious New York* has attained mythic status. Back in print in a newly designed edition, this influential cultural, architectural, and social history of New York is even more popular, selling out its first printing on publication. Rem Koolhaas's celebration and analysis of New York depicts the city as a metaphor for the incredible variety of human behavior. At the end of the nineteenth century, population information and technology explosions made Manhattan a laboratory for the invention and testing of a metropolitan lifestyle: the culture of congestion and its architecture. Manhattan, he writes, is the 20th century's Rosetta Stone, occupied by architectural mutations: Central Park, the Skyscraper, utopian fragments, Rockefeller Center, the UN Building, and irrational phenomena. Radio City Music Hall, Koolhaas interprets and reinterprets the dynamic relationship between architecture and culture in a number of telling episodes of New York's history, including the imposition of the Manhattan grid, the creation of Coney Island, and the development of the skyscraper. *Delirious New York* is also packed with intriguing and fun facts and illustrated with witty watercolors and quirky archival drawings, photographs, postcards, and maps. The spirit of this visionary investigation of Manhattan equals the energy of the city itself.

Rem Before Koolhaas Rem Koolhaas, 2026-03-03 A compact primer on Koolhaas' early, lesser-known journalistic career. Before the Dutch architect Rem Koolhaas, born 1944, cofounded the architectural firm OMA in 1975, published seminal works of postmodern theory such as *Delirious New York* (1978), gained a professorship at Harvard University, and cofounded *Volume Magazine* (2005), he was a journalist. Between 1963 and 1968, Koolhaas regularly contributed to the Dutch weekly *Haagse Post*. His specialty was the interview. Through his deft powers of observation and analysis, the young Koolhaas employed the form to make visible power dynamics and cultural shifts. This pocket-size volume is the first to compile Koolhaas' interviews for the *Haagse Post*, reproducing their original layouts. Rather than treating this period as a mere precursor to his architectural career, *Rem Before Koolhaas* presents it as culminating in a valuable body of critical work that lent itself to his later endeavors.

Rem Koolhaas, Rotterdam, 1944, studied architecture at the AA in London, where he went on to become a lecturer and at the IAUS in New York during Peter Eisenman's time there. Koolhaas has always been connected with the theory of architecture as a lecturer at the innovative AA, as a speaker, and with his published work. *Delirious New York*, a retrospective manifesto for Manhattan (1978), and the recent *S M L XL* (1995). In 1972, Koolhaas set up the OMA Office for Metropolitan Architecture, whose name clearly expresses the planning intentions of the team, comprising Koolhaas, Elia and Zoe Zenghelis, and Madelon Vriessendorp.

Source Books in Architecture No 14 contains project documentation from the OMA and Prada archives transcripts from Koolhaas conversations with students at the Knowlton School at The Ohio State University and commentary and critique from architects critics and theorists
