The Palgrave Handbook of Disability and Communication Michael S. Jeffress, Joy M. Cypher, Jim Ferris, Julie-Ann Scott-Pollock, 2023-03-29 The Palgrave Handbook of Disability and Communication covers a broad spectrum of topics related to how we perceive and understand disability and the language constructs constraints and communication behavior that shape disability discourse within society The essays and original research presented in this volume address important matters of disability identity and intersectionality broader cultural narratives and representation institutional constructs and constraints and points related to disability justice advocacy and public policy In doing so this book brings together a diverse group of over 40 international scholars to address timely problems and to promote disability justice by interrogating the way people communicate not only to people with disabilities but also how we communicate about disability and how people express themselves through their disabled identity

Successful Keyword Searching Randall MacDonald, Susan MacDonald, 2001 Students are using electronic resources more than ever before to locate information for assignments Without the proper search terms results are incomplete and students are frustrated Using the keywords key people organizations and web sites provided in this book compiled from the most commonly used databases students will be able to perform successful searches for 144 of the most popular research topics

on their own or in the classroom The 144 topics are divided into nine broad subject areas Arts and Literature Business Communication and Economics Culture and Cultural Diversity Health and Wellness History Political Science and Law Philosophy and Religion Science and Technology Social Issues and Sociology and Sports and Recreational Interests Each topic section provides an extended list of keywords to be used alone or in combination with other words in the section to perform Boolean searches The selected lists of key people include activists artists entertainers politicians scientists and other well known personalities in each field Organizations and web sites lead the student to even more resources providing a solid overview of each topic for the beginning researcher as well as increasing general on line searching skills

The Online Catalog Thomas A. Peters,1991 Studies of online public access catalog use have shown that failure rates of 40 percent are common advanced features series searches Boolean searches and call number browsing etc aren t used heavily and about 20 percent of all failed searches are due to misspellings and typographical errors The emphasis of this work is on user behavior rather than attitudes wishes and comments Problems with the use of online catalogs are identified and potential solutions examined Also included is a classified annotated bibliography

The Research Process Myrtle S. Bolner,Gayle A. Poirier,2002 Many of the assignments you receive as part of your experience in higher education will require you to use the library for research To do this you must become familiar with its collections and services You may be familiar with your high school or public library You will find however that the college or university library is more complex and often larger than the library with which you may be familiar It probably provides a greater variety of services and it may use a different scheme for classifying its materials Over the last two decades technology has drastically changed the way we think of libraries For many the traditional notion of libraries as storehouses for books has been replaced by the image of a virtual library that is a library in which all the information is available electronically In this image if a building exists at all it is only to house computers and to provide a laboratory in which librarians acting as information specialists are engaged in creating information in digital format Neither the traditional notion of a library as a storehouse for books nor the image of a virtual library is entirely true today However there is a certain amount of validity in each of these images The library you are using probably no longer has a card catalog In most academic libraries the card catalog has been replaced by an online catalog Many libraries have canceled paper subscriptions to indexes and abstracts replacing them with electronic versions Although libraries have gotten rid of their card catalogs in favor of online catalogs and subscribe to online databases and other resources in electronic format they continue to retain and purchase materials in traditional formats paper microfiche microfilm video cassette and the like And while it is true that technology has improved the ways we retrieve information it has also added levels of complexity College and university libraries offer a variety of
