

# Budgeting for irregular income: for freelancers, creatives & seasonal workers

If your income changes every month, your budget should flex with it — here's how to stay financially steady year-round.

## ***1. Know your baseline expenses***

Figure out your **bare minimum monthly costs** — rent, bills, groceries, debt payments. This is your “**survival number**” — the amount you must cover each month.

## ***2. Use your lowest-earning month as your budget base***

Plan around your **worst-case income**, not your best. That way, you're never short — and anything extra becomes a bonus or goes into savings.

## ***3. Create a “Hill & Valley” fund***

During high-income months, **set aside extra cash** to cover low-income ones. This buffer smooths out financial ups and downs — especially helpful in off-seasons or between gigs.

## ***4. Separate business & personal money***

Use different bank accounts for incoming income, taxes, and personal spending. This gives you a clearer view of what's *actually yours* to spend.

## ***5. Prioritize fixed costs & save first***

Pay yourself first by **automating savings** right after payday. Then cover non-negotiable expenses. What's left can go toward fun, extras, or investments.

## ***6. Track & adapt monthly***

With irregular income, **no two months will be the same** — so check in regularly. Adjust your budget every month based on projected income and known expenses.

*Budgeting isn't impossible with an unpredictable income — it just takes more flexibility and planning. Build a system that works for your rhythm.*
