become more persuasive than even the company's voice itself. Every one of these groups becomes a powerful ally or enemy depending on what we do. All of them will be constantly in flux, developing levels of trust and requiring varying levels of transparency to filter content and determine buying decisions. They will expand and collapse with great velocity and it will all happen with or without our participation. Content marketing has been around for hundreds of years. But the application of a specific strategic process around content marketing is still new. The amount of budget that is allotted for new content creation is going to become a significant part of your new media budget. And subject matter experts in the organization are going to have new responsibilities. It's a transformative new process and it won't happen overnight. But it can and should happen. Get Content, Get Customers showed us the light but there's been no book to show us the way. There is an ancient Chinese proverb that says a crisis is simply an opportunity riding the dangerous wind. Successful programs will focus on creating a thoughtful strategy and process to foster this content marketing. This book is a detailed how-to build that successful content marketing process. You're here because you want to apply content marketing concepts to your business, turning yourself into a lean and mean content marketing machine. To start, what is Content Marketing? Content marketing is a strategic marketing and business process focused on creating and distributing valuable, relevant, and consistent content. This

content is meant to attract and retain a clearly defined audience and ultimately drive profitable customer action. When done correctly, content marketing helps create a relationship with your audience which leads to trust. And if your audience trusts you, they'll be more willing to do business with you when they're ready to make a purchasing decision. Your content should attract the right people to your site, convert those people into leads, and nurture and help close them into customers. But it doesn't stop there; your content should always delight your customers, turning them into promoters of your brand.
