Your course project will take the form of participatory "action research". The purpose of participatory research is to become professionally involved in solving real world problems while systematically observing and documenting changes due to your involvement in classroom teaching - your own teaching or your observation of others' teaching (if you are not currently teaching). Your final draft of the research proposal is a culminating research project that should incorporate the progress from all the previous three drafts, and should be coherent and comprehensive. The formatting of the final draft will follow the APA guidelines from the course text book: *Concise Rules of APA Style*. (2005). Washington, DC: American Psychological Association (ISBN 1-59147-252-0).
