Anatomia Barocca:

Wax Museum Movies George Higham, 2020-09-18 Spanning over a century of cinema and comprised of 127 films this book analyzes the cinematic incarnations of the uncanniest place on earth wax museums Nothing is as it seems at a wax museum It is a place of wonder horror and mystery Will the figures come to life at night or are they very much dead with corpses hidden beneath their waxen shells Is the genius hand that molded them secretly scarred by a terrible tragedy longing for revenge Or is it a sinner's sanctum harboring criminals with countless places to hide in plain sight This chronological analysis includes essential behind the scenes information in addition to authoritative research comparing the creation of real wax figures to the reel ones seen onscreen Publicly accessible or hidden away in a maniac's lair wax museums have provided the perfect settings for films of all genres to thrillingly play out on the big screen since the dawn of cinema
