Somers, 1984 International Perspectives on the Teaching of Literature in Schools Andrew Goodwyn, Cal Durrant, Louann Reid, Lisa Scherff, 2017-08-31 Literature teaching remains central to the teaching of English around the world. This edited text brings together expert global figures under the banner of the International Federation for the Teaching of English (IFTE). The book captures a state-of-the-art snapshot of leading trends in current literature teaching, as well as detailing predicted trends for the future. The expert scholar and leading teacher contributors, coming from a wide range of countries with fascinatingly diverse approaches to literature teaching, cover a range of central and fundamental topics: literature and diversity, digital literatures, pedagogy, and reader response; mother tongues, the business of reading, publishers, adolescent fiction, and censorship; assessing responses to literature, the changing definitions of literature, and multimodal texts. The collection reviews the consistently important place of literature in the education of young people and provides international evidence of its enduring value and contribution to education, resisting the functionalist and narrowly nationalist perspectives of misguided government authorities. *International Perspectives on the Teaching of Literature in Schools* will be of value to researchers, PhD students, literature scholars, practitioners, teacher educators, teachers, and all those in the extensive academic community interested in English and literacy around the world. **Immunology & Serology in Laboratory Medicine** Mary Louise Turgeon, 2013-02-15 The 5th edition of this classic text sets the standard for comprehensive coverage of immunology.
