Abjectly Boundless Trudy Rudge, 2016-03-16 Within a variety of practice environments health professionals often experience feelings of disgust and repulsion towards the presence of an abject object Cadaverous sick disabled bodies troubled minds wounds vomit and so forth are all part of health and care work and threaten the clean and proper bodies of those who undertake it yet this unclean side of health work is rarely accounted for in academic literature This volume employs the work of Julia Kristeva through a range of case studies drawn from care and nursing settings around the world It brings together work from researchers and practitioners within the social and health sciences the caring professions and psychotherapy to expose and highlight the important impact of the concept of abjection which historically has been silenced in the health sciences

On the Politics of Ignorance in Nursing and Health Care Amelie Perron, Trudy Rudge, 2015-08-14 Ignorance is mostly framed as a void a gap to be filled with appropriate knowledge In nursing and health care concerns about ignorance fuel searches for knowledge expected to bring certainty to care provision preventing risk accidents or mistakes This unique volume turns the focus on ignorance as something productive in itself and works to understand how ignorance and its operations shape what we do and do not know Focusing explicitly on nursing practice and its organization within contemporary health settings Perron and Rudge draw on contemporary interdisciplinary debates to discuss social processes informed by ignorance ignorance's temporal and spatial boundaries and how ignorance defines what can be known by specific groups with differential access to power and social status Using feminist postcolonial and historical analyses this book challenges dominant conceptualizations and discusses a range of nonknowledges in nursing and health work including uncertainty abjection denial deceit and taboo It also explores the way dominant research and managerial practices perpetuate ignorance in healthcare organisations In health contexts productive forms of ignorance can help to future proof understandings about the management of healthy sick bodies and those caring for them Linking these considerations to nurses approaches to challenges in practice this book helps to unpack the power situated in the use of ignorance and pays special attention to what is safe or unsafe to know from both individual and organisational perspectives

On the Politics of Ignorance in Nursing and Health Care is an innovative read for all students and researchers in nursing and

the health sciences interested in understanding more about transactions between epistemologies knowledge building practices and research in the health domain It will also be of interest to scholars involved in the interdisciplinary study of ignorance
