**Enhancing Web Accessibility of Rich Internet Applications** Sushmina Manandhar, 2010 [Web Accessibility](#) Richard Rutter, Patrick H. Lauke, Cynthia Waddell, Jim Thatcher, Shawn Lawton Henry, Bruce Lawson, Andrew Kirkpatrick, Christian Heilmann, Michael R. Burks, Bob

Regan, Mark Urban, 2007-03-19 The power of the Web lies in the fact that anyone and everyone can access it and this should also extend to users with disabilities Accessibility is about making websites accessible to those with aural visual or physical disabilities or rather constructing websites that don't exclude these people from accessing the content or services provided This isn't difficult to accomplish and doesn't require anything more than your normal tool set HTML CSS JavaScript Flash or whatever else All you need to do is use these tools in the right way and bear in mind the guidelines that exist to help you keep your websites accessible and the laws that enforce web accessibility around the world This book gives you all you need to know about web accessibility whether you are a web designer or developer who wants your sites to be accessible or a business manager who wants to learn the impact of web accessibility laws on your websites After an overview of the accessibility law and guidelines and a discussion about accessibility and its implementation in the enterprise the book goes on to show how to implement accessible websites using a combination of concise references and easy to follow examples covering Understanding assistive technologies Creating accessible content using XHTML JavaScript CSS Flash and PDFs Testing against WCAG including 2.0 and Section 508 Retrofitting inaccessible sites where necessary The book concludes with an in depth analysis of accessibility law around the world If you're concerned about the legal and moral implications of web accessibility then this book is perfect for you It is written by some of the world's experts on accessibility leaving you in good hands

**Constructing Accessible Web Sites**

Cynthia Waddell, Bob Regan, Shawn Lawton Henry, Michael R. Burks, Jim Thatcher, Mark D. Urban, Paul Bohman, 2003-07-14 Accessibility is about making websites that don't exclude people with visual aural or physical disabilities Through real world examples this practical book will teach you how to create or retrofit accessible websites quickly and easily This book is aimed toward web professionals creating accessible websites or updating existing sites to make them accessible It's also useful for corporate university and government policy makers involved in the development and maintenance of websites for their institutions The thorough and practical accessibility techniques outlined in this book come from some of the best accessibility professionals in the business The techniques are illustrated and accompanied by real world examples from live sites demonstrating that accessibility is not the enemy of great visual design

Rich Internet applications [Xavier Farré López, Roc Meseguer Pallarès, 2005 *Apps For All* Smashing Magazine, Heydon

Pickering, 2014 Accessibility is not just about addressing specific disabilities but making sure as many people as possible have access to the same information There's rarely a good reason to lock people out when openness is a foundational principle of the web Web accessibility is quite a large topic far too large to fit into a small book So what will this book cover Though we shall encounter visual design challenges deal with performance issues and adopt progressive enhancement all of which are accessibility concerns the underlying theme of this book is about making the interactivity of web applications include keyboard and screen reader users Starting with defining simple button controls and moving on to create reusable accessible widgets this book is about making interactions possible and meaningful for those who suffer from cognitive and

motor impairments as well as users who experience a range of vision impairments However the lessons learned from addressing the specific requirements of those using assistive technologies or consuming information in unusual ways can be applied to enrich the web for everyone We all win **Thinking About Web Accessibility** H Robert King,2019 Most websites have missing or inadequate accessibility costing organizations billions in lawsuits and lost revenue every year and those responsible for designing and building those websites often lack the knowledge to help But there is a way to design and build accessible websites and develop in house knowledge at the same time and Thinking About Web Accessibility can show you how In this easy to follow guide user interface and web accessibility expert H Robert King draws on his vast experience creating interfaces for hundreds of millions of users across the globe and identifies both stumbling blocks to avoid and stepping stones on the path to take as he shows you why you re missing out on revenue and how to fix it
