would have been appalled by the extremes to which eugenics was carried Here then is a vibrant biography of a remarkable scientist as well as a superb portrait of science in the Victorian era [A Life of Sir Francis Galton](#) Nicholas W. Gillham,2001 This vivid biography of the father of eugenics is also a superb portrait of science in the Victorian era 10 halftones 26 line illustrations [Historicizing Humans](#) Efram Sera-Shriar,2018-05-23 With an Afterword by Theodore Koditschek A number of important developments and discoveries across the British Empire s imperial landscape during the nineteenth century invited new questions about human ancestry The rise of secularism and scientific naturalism new evidence such as skeletal and archaeological remains and European encounters with different people all over the world challenged the existing harmony between science and religion and threatened traditional biblical ideas about special creation and the timeline of human history Advances in print culture and voyages of exploration also provided researchers with a wealth of material that contributed to their investigations into humanity s past [Historicizing Humans](#) takes a critical approach to nineteenth century human history as the contributors consider how these histories were shaped by the colonial world and for various scientific religious and sociopolitical purposes This volume highlights the underlying questions and shared assumptions that emerged as various human developmental theories competed for dominance throughout the British Empire [Inquiries into human faculty and its development](#) Sir Francis Galton,1951 **The Science and Politics of Racial Research** William H. Tucker,1994 Unlike other critiques of the scientific literature on racial difference [The Science and Politics of Racial Research](#) argues that there has been no scientific purpose or value to the study of innate differences in ability between groups William Tucker shows how for more than a century scientific investigations of supposedly innate differences in ability between races have been used to rationalize social and political inequality as the unavoidable consequence of natural differences Tucker structures his work chronologically with each chapter describing how research on genetic difference was used in a particular era to support a particular political agenda He begins with the use of science to support slavery in the mid nineteenth century and ends with the effects of Jensenism in the 1970s Highlights include one chapter describing a little known but concerted attempt by a group of scientists to overturn the Brown v Board of Education decision on the basis of expert testimony about racial differences and another that presents a review of the eugenics movement in the twentieth century The author also considers how to balance the rights and responsibilities of scientists concluding that one generally neglected method is to strengthen the rights of research subjects [She Is Weeping](#) Dannelle Gutarra Cordero,2021-11-18 Dannelle Gutarra Cordero s expansive study incorporates writers cultural figures and intellectuals from antiquity to the present day to analyze how discourses on emotion serve to create and maintain White supremacy and racism Throughout history scientific theories have played a vital role in the accumulation of power over colonized and racialized people Scientific intellectual discourses on race gender and sexuality characterized Blackness as emotionally distinct in both deficiency and excess a contrast with the emotional benevolence accorded to Whiteness Ideas on racialized emotions have simultaneously driven the

development of devastating body politics by enslaving structures of power Bold and thought provoking She Is Weeping provides a new understanding of racialized emotions in the Atlantic World and how these discourses proved instrumental to the rise of slavery and racial capitalism racialized sexual violence and the expansion of the carceral state **The Quarterly Journal of Economics** Charles Franklin Dunbar, Frank William Taussig, Abbott Payson Usher, Alvin Harvey Hansen, William Leonard Crum, Edward Chamberlin, Arthur Eli Monroe, 1912 Issues for 1886 1908 include the section Recent publications upon economics Bulletin University of Illinois (Urbana-Champaign campus).
