## Of The Irish Famine :

**The Great Irish Famine** Cormac Ó'Gráda, Economic History Society, 1995-09-28 The Irish Famine of 1846 50 was one of the great disasters of the nineteenth century whose notoriety spreads as far as the mass emigration which followed it Cormac Ó Gr da s concise survey suggests that a proper understanding of the disaster requires an analysis of the Irish economy before the invasion of the potato killing fungus *Phytophthora infestans* highlighting Irish poverty and the importance of the potato but also finding signs of economic progress before the Famine Despite the massive decline in availability of food the huge death toll of one million from a population of 8 5 million was hardly inevitable there are grounds for supporting the view that a less doctrinaire attitude to famine relief would have saved many lives This book provides an up to date introduction by a leading expert to an event of major importance in the history of nineteenth century Ireland and Britain *The Great Famine* Charles River Charles River Editors, 2016-07-12 Includes pictures Includes accounts of the famine by Irishmen who suffered through it Includes online resources and a bibliography for further reading Includes a table of contents I have called it an artificial famine that is to say it was a famine which desolated a rich and fertile island that produced every year abundance and superabundance to sustain all her people and many more The English indeed call the famine a dispensation of Providence and ascribe it entirely to the blight on potatoes But potatoes failed in like manner all over Europe yet there was no famine save in Ireland John Mitchel Young Ireland Movement Anyone who has ever heard of the luck of the Irish knows that it is not something to wish on someone for few people in the British Isles have ever suffered as the Irish have As one commissioner looking into the situation in Ireland wrote in February 1845 It would be impossible adequately to describe the privations which they habitually and silently endure in many districts their only food is the potato their only beverage water their cabins are seldom a protection against the weather a bed or a blanket is a rare luxury and nearly in all their pig and a manure heap constitute their only property Even his fellow commissioners agreed and expressed our strong sense of the patient endurance which the laboring classes have exhibited under sufferings greater we believe than the people of any other country in Europe have to sustain Still in their long history of suffering nothing was ever so terrible as what the Irish endured during the Great Potato Famine that struck the country in the 1840s and produced massive upheaval for several years While countless numbers of Irish starved the famine also compelled many to leave and all the while the British were exporting enough food from Ireland on a daily basis to prevent the starvation Over the course of 10 years the population of Ireland decreased by about 1 5 million people and taken together these facts have led to charges as severe as genocide At the least it indicated a British desire to remake Ireland in a new mold As historian Christine Kinealy noted As the Famine progressed it became apparent that the government was using its information not merely to help it formulate its relief policies but also as an opportunity to facilitate various long desired changes within Ireland These included population control and the consolidation of property through various means including emigration Despite the overwhelming evidence of prolonged

distress caused by successive years of potato blight the underlying philosophy of the relief efforts was that they should be kept to a minimalist level in fact they actually decreased as the Famine progressed Although the Famine obviously weakened Ireland and its people it also stiffened Irish resolve and helped propel independence movements in its wake By the time the Famine was over it had changed the face of not just Ireland but also Great Britain and it had even made its effects felt across the Atlantic in the still young United States of America The Great Famine The History of the Irish Potato Famine during the Mid 19th Century looks at the history of the notorious famine and its results Along with pictures and a bibliography you will learn about the Irish Potato Famine like never before in no time at all *Black Potatoes* Susan Campbell Bartoletti,2001 The award winning author pens a fascinating account of the potato blight that struck in Ireland telling the story of the men women and children who made every attempt to survive and hang on to hope The Great Irish Famine Canon John O'Rourke,1989 When the great Irish famine of the years 1845-49 finally ceased it had taken a toll of the Irish nation from which it has never fully recovered More than 1.2 million people died as a result of hunger or disease In six years from 1846-1851 more than 1.8 million left the country Those who were left in a stricken motherland were sunk in misery and despair With the decimation and emigration of its users the Irish language suffered a mortal blow The nation seemed doomed to extinction This definitive work is a vivid record of this catastrophe that almost wiped out the Irish nation It also provides a history of previous famines in Ireland and gives a fascinating account of the arrival of the potato in Europe and its introduction to Ireland Also discussed is the onslaught of the blight and the puny efforts by the London government to counter its effects Publisher description

Irish life the relationship between the churches the nationalist movement and the relationship with the monarchy In addition to looking at the role of the government Kinealy shows the importance of private charity in saving lives One of the most challenging aspects of the publication is the chapter on food supply in which Kinealy concludes that despite the potato blight Ireland was still producing enough food to feed its people The long term impact of the tragedy notably the way in which it has been remembered and commemorated is also examined [Irish Potato Famine](#) Joseph R. *The Great Irish Potato Famine* James S Donnelly Jr, 2002-11-01 In the century before the great famine of the late 1840s the Irish people and the poor especially became increasingly dependent on the potato for their food So when potato blight struck causing the tubers to rot in the ground they suffered a grievous loss Thus began a catastrophe in which approximately one million people lost their lives and many more left Ireland for North America changing the country forever During and after this terrible human crisis the British government was bitterly accused of not averting the disaster or offering enough aid Some even believed that the Whig government's policies were tantamount to genocide against the Irish population James Donnelly's account looks closely at the political and social consequences of the great Irish potato famine and explores the way that natural disasters and government responses to them can alter the destiny of nations

leave for foreign destinations over the next half century How they left how they settled in the host countries and their experiences with the local populations are as wide and varied as the numbers who left and using extensive primary sources this volume analyses and assesses this in the context of the emigrants themselves and in the new countries they moved
