Written for marketers, business analysts, and college students, this practical guide helps solve real world marketing problems and boosts competitiveness. In an era of accessible data, we emphasize the use of tools like cookies to gather customer information, from product preferences to website visits. We provide economically viable ideas, discussing budget planning for small and medium sized retailers and practical solutions for their challenges. We explore tools such as marketing mix modeling (MMM), multi touchpoint attribution (MTA), and promotional lift analysis. MMM processes macro level information to assess investment value and predict future tactics impact. MTA identifies digital marketing channels and sequences that lead to conversions. Promotional lift measures incremental sales or margins from marketing efforts. Marketers must use diverse techniques for a comprehensive view of marketing effectiveness and ROI.
