Present scenario pf CPI (Maoist) amd Police Administration in India Dr. Vinod Kumar Tandon,2024-04-05 The book consisted with problems of villagers police and administration and their shortcomings In course of actions it is realized that the works

previously done to tackle the Naxalite problem seems to be inappropriate one sided idealized and seems less practical Somewhere the implementation in practice is difficult and the possible realistic solution bringing up in this book Ever since the Naxalite problem has arisen in India it has been ignored since then that s why its expansion increased about 16 states of India now Chhattisgarh state is its epicenter This book is based on author s live experience as force person as well as being a citizen of Chhattisgarh state The book well elaborated as follows 1 Education health unemployment lack of roads transportation and communications means etc have become the main reason for the expansion of Naxalism 2 Economic inequality and exploitation forced the residents to join Naxalite ideology for achieving social justice 3 Naxalites consider police and forest officials as their main opponents 4 To end the Naxalite movement lacking sufficient resources for the police administration to perform his duty effectively 5 Naxalites take advantage of the lack of coordination between the common citizens and the police 6 There is a need to improve the functioning of the police administration by gaining the trust of the public 7 India s ancient Varna and caste system was based on inequality discrimination and oligarchy such as monopoly of political economic educational and power of some varna s and caste s in such a way all the above modes having negatively impacted of human development in India

Terrorism, Security and Development in South Asia M. Raymond Izarali, Dalbir Ahlawat, 2021-04-28 This book provides a rich analysis of the actors and organizations to reflect on the antecedents and trajectories of terrorism and insurgency in South Asia and the different countermeasures adopted by the countries to deal with the security and developmental challenges South Asia is a complex geography that has been both a victim and a playing field for indigenous insurgencies and domestic and transnational terrorist movements The contributors to this volume explore how this situation has posed serious challenges to the sovereignty of the states to national and human

security and to the socioeconomic fabric of the communities and to the ethnic and religious cohesion The book provides detailed studies of country cases on terrorism security and insurgencies and it underlines the national regional and global implications of the threats that emanate from this region Presenting an opportunity to diversify away from a Western centric focus on terrorism and security this book will be valuable to researchers in political science criminology defense and security studies and to policy makers and think tanks Betwixt Development and Discontent Lalita Prasad,2017-01-01 The book throws light on important dimensions of tribal development and discontent among the tribes who are living in the south eastern sub region of east west part of Uttar Pradesh It includes the whole Sonbhadra district and adjoining subdivisions of Mirzapur and Chandauli Allahabad and Chitrakoot The area is contiguous with tri junction of the vast country s tribal region lying in Jharkhand Chhattisgarh and Madhya Pradesh They have emerged as the main theater of Naxal activities The question of appropriate tribal centred development hardly ever arises at the policy plans What kind of development appears to be the more pertinent issue There is seeming paradox inherent in the situation because if we look at the tribals lying in Uttar Pradesh we find that there is relatively more manifest unrest and rebellion in the more developed South Eastern section i e Naugarh Chandauli alongwith Sonbhadra than in the Western Sector i e Southern portion of Mirzapur Allahabad and Chitrakoot districts Why tribes of this region have not been able to come at par with rest of the society even after more than Twelve Five Year Plans Why should there be relatively greater unrest and protest in the relatively more developed parts of this elongated geographic regions This brings in the question of the type of Mainstream development This sub section has witnessed since 1950s extensive mining string of large scale industries roads and other infrastructural investments which is itself a major causes of dalit unrest These development programmes induced displacement involuntary migration and resettlement and land alienation are the most important causes of their illiteracy poverty and enormous problems Scholars of Sociology Anthropology and Philonthropy will find the book informative and useful They will understand the real causes of their discontent and why they are in cluch of Naxalites whose distructive and mass killing activities have threatened the national law and order and development programmes of the country **Operation Naxalism** Raj Kumar Mishra,2010

of violence and betrayal sin and redemption and what it means to live through and write about such experiences making *The Death Script* one of the most significant works of non fiction to be published in recent times
