Endocrine Surgery Comprehensive Board Exam Guide Alexander L. Shifrin, Marco Raffaelli, Gregory W. Randolph, Oliver Gimm, 2022-01-19

Every surgical subspecialty has been rapidly developing with establishment of the board certification. The Division of Endocrine Surgery (DES) of the European Board of Surgery has defined the curriculum for Endocrine Surgery to include thyroid, parathyroid, adrenal, and GEP/NET surgery and handles accreditation in Endocrine Surgery. The first examinations in Endocrine Surgery in Europe have been introduced in 2003. The main goal of the exam is to maintain a uniform and high standard of endocrine surgical professionalism across Europe. This book was completed with the expectation that it would benefit all European surgeons looking to be certified in Endocrine Surgery. Additionally, surgeons from the United States and other non-EU countries we hope will also benefit from this book. There is a need for a specialized book that reviews evidence-based endocrine surgery that aligns itself with current curriculum standards in the field. The book contains knowledge that is expected to be known on the board examination of the DES. In general, chapters start with a patient's case followed by questions. The subsequent comprehensive yet concise main text provides all the information needed for a successful DES exam and cites important references. After the patient case and questions, the text goes on to define the condition, the standard of care, approach to establish the diagnosis, perform diagnostic tests of choice, review evidence-based treatment options including medical therapy, preparation for surgery. The chapters conclude with follow-up care and long-term outcomes. The topics discussed within this book closely follow the curriculum of the European Board of Surgery Examination. Written by experts in the field, *Endocrine Surgery Comprehensive Board Exam Guide* is a valuable source of preparation for the Endocrine Surgery examination and brings Endocrine Surgery to a higher level of expertise by helping to raise the standard of training for future endocrine surgeons.
