

# Cooling Theory Lectures Notes

Markus Hupfer and members of the team!

September 7, 2024

These are the notes for the first lecture. I have not gone through and given feedback on all of the notes given, but for the convenience of the reader, we have taken the liberty of publishing the Cooling Theory and the book of Markus and Peter (published as *Environmental Design*). I also used several other sources for additional material, such as Part II notes given at Cambridge on Cooling Theory and Environmental Design by Professor Peter Hupfer, and the book given below at Cambridge that is a textbook on environmental design given by Professor Tim O'Riordan. I also included some material from the 2023 course, Applied Skills for the Procurement of Buildings, and the setting of the notes is based on the Building Services course given by Hugh Boardman.

All material by these notes are my work.
