Guide to International Financial Management John Fred Weston, Bart W. Sorge, 1977 Isolates the key concepts and decision areas of international financial management The central theme is that the international financial markets are efficient because of informed participants but managers of firms must increasingly prepare themselves to become aware of international factors and to react to them on an informed basis Provides materials for understanding the events taking place and to serve as a foundation for continued study Topics range from the development of an international

firm to government rules and policies affecting international business

Corporate Financial Analysis Diana R. Harrington, 2001 This paperback text emphasizes the financial concepts and tools essential for understanding the financial impacts of business decisions Harrington uses current examples of actual business situations to demonstrate how financial tools concepts and theories can be used by managers to improve decision making and enhance business performance The text has a global emphasis with an equal number of domestic and international examples The author includes a discussion of international financial statements and the financial impacts of changes in foreign exchange rates The book's major appeal is its direct concise and no nonsense approach to understanding both the basics of finance and current financial concepts which allows even non financial managers to understand financial analysis

Strategic Risk Taking Aswath Damodaran, 2008 Groundbreaking book that redefines risk in business as potentially powerful strategically to help increase profits bull Get out of your defensive crouch learn which risks to avoid which to mitigate and which to actively exploit bull Master risk management techniques that can drive competitive advantage increase firm value and enhance growth and profitability bull By Dr Aswath Damodaran one of the field's top gurus known worldwide for his classic guides to corporate finance and valuation
