Describe an occasion on which you had to demonstrate ethical behavior.

I have already mentioned in my profile that I have been working in an audit firm from last three years. While working in such a field, you have to deal with such situations almost daily where one has to demonstrate the ethical behavior. I would like to highlight one event in this regard. I was very lucky in this regard as the partners of my firm were ethically very strong. I learned that if you do something correct, everyone encourages you professionally. So never be afraid of doing anything which is ethically correct. I immediately became a bit more important after that for my firm.

Nothing happens to them who don't disclose such information to the firm and go for such assignment if the matter remains undetected. In our firm, we have to sign off and independence statement that we don't have any relationship with the company where we are going for the audit, they sign wrong statement. If such matter is detected by the firm, firm takes serious actions. At least the worthiness of that employee is reduced in the eyes of managers and partners.
