c't Working with AI
c't-Redaktion, 2024-01-24

The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots. It explains why language models make mistakes and how they can be minimized. This not only helps when you send questions and orders to one of the chatbots offered online. If you do not want to or are not allowed to use the cloud services for data protection reasons, for example, you can also set up your own voice AI. The c't editorial team explains where to find a suitable voice model, how to host it locally, and which service providers can host it. The fact that generative AI is becoming increasingly productive harbours both opportunities and risks. Suitable rules for the use of AI in schools, training, and at work help to exploit opportunities and minimize risks.

Political ecologies of the far right Irma Kinga Allen, Kristoffer Ekberg, Ståle Holgersen, Andreas Malm, 2024-05-28

This volume engages with the alarming convergence of far-right thinking and the ecological crisis in contemporary society. Growing out of the first international conference on political ecologies of the far right, the volume gathers crucial insights from authorities in the field as well as promising early-career researchers. With cases ranging from ethnographical accounts of fossil-fuel populist protest to historical analysis of the evangelical support for fossil fuels, to interrogations of the settler-colonial identities and material conditions defended by far-right actors around the world, the book provides scholars, students, and activists with ways to understand and counter these developments.
