Analytics Of Uncertainty And Information:

The Analytics of Uncertainty and Information Sushil Bikhchandani, Jack Hirshleifer, John G. Riley, 2013-08-12 There has been explosive progress in the economic theory of uncertainty and information in the past few decades This subject is now taught not only in departments of economics but also in professional schools and programs oriented toward business government and administration and public policy This book attempts to unify the subject matter in a simple accessible manner Part I of the book focuses on the economics of uncertainty Part II examines the economics of information This revised and updated second edition places a greater focus on game theory New topics include posted price markets mechanism design common value auctions and the one shot deviation principle for repeated games The Analytics of Uncertainty and Information Jack Hirshleifer, John G. Riley, 1992 The Legacy of Herbert Simon in Economic Analysis Peter E. Earl, 2001 Herbert A Simon has been a leading contributor to cognitive psychology computer science public administration philosophy and statistics and is the winner of the 1978 Nobel Memorial Prize in economics As this authoritative collection demonstrates his impact on economics has been felt in areas as diverse as the theory of the firm and economic organization consumer behaviour law and economics and environmental economics Central to his work is the notion of bounded rationality the mismatch between human decision making capacities and the scale of the decision problems that people face which results in satisficing rather than optimising behaviour and his belief that economic research should start from the study of actual behaviour rather than being based on convenient but unrealistic assumptions Peter Earl s choice of articles shows both the kind of economics that emerges when Simon s philosophy is followed comprehensively and what happens when neo classical economists partially adopt his ideas High Technology Law Journal , 1993 Handbook of Mathematical Economics: Mathematical approaches to microeconomic theory Kenneth Joseph Arrow, Michael D. Intriligator, 1981 V 1 Historical introduction v 2 Mathematical approaches to microeconomic theory v 3 Mathematical approaches to welfare economics

Who's who in Economics Mark Blaug,1999 A biographical dictionary of major economists both past and present Entries provide biographical bibliographical and critical information on some 1 000 living economists and some 500 deceased economists Each entry assesses the economist s distinctive contribution and lists critical studies important for an understanding of his or her work Living entrants themselves summarize their contributions offering a unique self criticism of their work Includes indexes of principal fields of interest country of residence and country of birth **The Legacy of Friedrich Von Hayek** Peter J. Boettke,1999 This major three volume collection offered in the centenary year of Hayek s birth celebrates a lifetime of scholarship and original contributions that cross the disciplines of politics philosophy and economics Hayek rose to fame as a young technical economist engaged in debate with Keynes and became infamous in middle age for his harsh critique of socialist planning For much of the 1950s and 1960s Hayek was ignored as a relic of 19th century economic liberalism as the tide of intellectual and political fashion moved against both his warnings about Keynesian demand management and his critique of socialist planning Late in life Hayek was celebrated as a prescient scholar who foresaw the decline in both the Keynesian and socialist systems of economic control Hayek made major analytical contributions which have yet to be appreciated by either friend or foe Through this selection of classic articles *The Legacy of Friedrich von Hayek* attempts to place Hayek s contributions to political economy in a proper perspective *A Strategic Analysis of Science & Technology Policy* Harvey A. Averch,1985 **Capital Investment Analysis for Engineering and Management** John R. Canada,William G. Sullivan,John A.
