World History: Patterns of Interaction McDougal Littell Incorporated, 2005-01-01 [The Trouble with Textbooks](#)
Gary A. Tobin, Dennis R. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America s elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the denigration of some should be a concern for all

Teaching Global History Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it

[Essentials of Middle and Secondary Social Studies](#) William B. Russell III, Stewart Waters, Thomas N. Turner, 2013-10-15 Building on the success of a much loved elementary text Essentials of Middle and Secondary Social Studies focuses on the key issues central to the actual teaching of middle and high school social studies including lesson planning and inclusive instructional strategies Written in an engaging conversational style the text

encourages teachers in their development as professionals and enables them to effectively use creative and active learning strategies in the everyday classroom. Features of the book include a full chapter on lesson plans designed to provide middle and secondary social studies teachers with classroom tested lesson plans. The chapter includes two classroom tested lessons for each social science discipline: U.S. History, World History, Geography, Government, Economics, Psychology, Sociology. A chapter on technology that is designed to better prepare middle and secondary social studies teachers to effectively teach social studies with technology. Attention is given to digital history, media literacy, teaching with film and music, and numerous other types of impactful technology. Each teaching methodology and lesson plan discusses how the strategy can be used to meet the individual needs of diverse learners, including English Language Learners and exceptional education students. A section in each chapter provides various resources for further development. The section includes articles, books, and web resources. Each chapter includes an Extension activity offering readers with the opportunity to extend the learning experience with relevant and meaningful real life scenarios. Focus activities give readers the opportunity to prepare for the learning experience with relevant and meaningful scenarios. Covers current topics such as NCSS Standards, Common Core State Standards, Technology, Media Skills, Character Education, and Literacy.

[Social Studies for Secondary Schools](#) Alan J. Singer, 2008-10-26. This popular text advocates an inquiry and activity based view of social studies teaching that respects the points of view of students and teachers. Based in practice and experience, it offers systematic support and open, honest advice for new teachers. It is conversational, not pedantic, and provides lots of examples. While the structure and most of the topics remain largely the same as before, this Third Edition presents new lesson ideas in every chapter, especially designed to help new teachers to address learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. It puts a heavier focus on what is important to know and why, includes new essays on the politics of social studies education, responds to opponents of project or activity based social studies instruction, and multicultural education with a sharpened defense of both of these approaches throughout the book. Intended as a text for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.
