Bruce Bueno de Mesquita, 2000 In contrast to most current approaches to international politics this work views domestic politics and international relations as inseparable and the role of individual political leaders as key A core assumption is that political leaders and foreign policy decision makers are motivated to keep their jobs and that they select policies and allocate scarce resources so as to help them fulfill their personal political objectives **Principles of International Politics +**

Amstutz, 2008 This introductory text presents an overview of fundamental concepts and principles of international relations IR using a game metaphor The use of the game metaphor as an organizing principle allows the author to present the inner logic of IR in a succinct coherent and dynamic manner The first part of the primer focuses on the nature of the international community and how the IR game is played In this section the author examines the nature of the IR game the actors eligible to play the game and the goals and strategies for playing the game In presenting the basic architecture of global politics the book illuminates key elements of the traditional Westphalian system and then highlights important changes currently underway in the emerging postmodern international system The second part of the primer examines the four types of rules action political economic legal and moral Although IR has often been defined in terms of power politics alone all four types of rules play an important role in structuring the international behavior of states and other actors The text concludes by examining developments that are likely to influence the future IR game Beginning students and laypeople with an interest in global affairs will find this innovative and clearly written guide a useful conceptual roadmap to the field of international relations pub desc
