Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Koroku Agbobli, Henri-Vincent Ndjave-Ndjjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences

and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

Strategic Mergers in Higher Education Ricardo Azziz, Guilbert C. Hentschke, Lloyd A. Jacobs, Bonita C. Jacobs, 2019-10-29 How proactive mergers can stabilize and enhance colleges and universities and ensure their future With the pool of high school graduates decreasing national and global competition increasing and the need to invest in new technologies and approaches growing many universities and small colleges alike are struggling not just to thrive but to survive In this challenging environment mergers and consolidations are often viewed as options of last resort Strategic Mergers in Higher Education however argues that college and university mergers are a legitimate and proactive strategic option to help ensure success maximize quality and service and yield the best return for faculty and students In this thoughtful book Ricardo Azziz and his coauthors including higher education leaders who have led successful consolidations address the many questions surrounding institutional mergers When they ask and why should a merger be considered How can leaders deal effectively with the many challenges and opposition that a merger will inevitably face What are the predictors of merger failure and success And how do we successfully address the postmerger cultural divide This thorough text demonstrates how mergers can dramatically accelerate the goals of postsecondary institutions The book is informed by an extensive review of published reports interviews with over thirty higher education leaders individual case studies and the experiences of the authors themselves Addressing numerous critical questions this practical guide is aimed at higher education leaders and their boards the campus leaders charged with executing transformative mergers and any policy makers interested in change management or the future of higher education

Systemic and Systematic Risk Management Joseph E. Kasser, 2020-05-14 This book discusses risk management as it applies to problem solving for simple complex and wicked problems faced by policy creators and implementors project managers and systems engineers in the context of policies large engineering projects LEPs projects and systems When applying systems thinking to risk management it can be seen that risk management applies to almost every action taken in daily life This book Introduces the systems approach of integrating risk management into policy creation and implementation project management and systems engineering such as the risk framework and the Firm Fixed Price FFP contract with penalties and bonuses Introduces a number of out of the box concepts building on the application of the systems thinking tools in the system thinker s toolbox Points out that integrating risk management into policy and project management and systems engineering is just good management and engineering practice Discusses the flow of risk in a policy from creation through implementation via LEPs and simpler projects identifying where risks arise and where they should be dealt with Presents the risks in the relationship between policy creation implementation project management and systems engineering Discusses risks throughout the policy implementation process and shows how the nature of risks changes from political to financial to technological as implementation proceeds Discusses managing complexity and specifies

the minimum number of elements in a system for it to be defined as and managed as complex Points out that in most instances the traditionally ignored major implementation risk is that of poor performance by personnel Shows how to proactively incorporate prevention into planning in order to prevent risks as well as how to mitigate them when they occur
