

# AMNESIA

The Primary Symptom of Amnesia is Memory Loss or Inability to Form New Memories

## Brain and Memory

## Types of Amnesia

### Retrograde Amnesia

When You Have Retrograde Amnesia, You Lose Existing, Previously Made Memories

### Anterograde Amnesia

When You Have Anterograde Amnesia, You Can't Form New Memories

### Transient Global Amnesia

You Experience Confusion or Agitation that Comes and Goes Repeatedly Over the Course of Several Hours

### Infantile Amnesia

Most people can't Remember the First Three to Five years of Life

## Causes of Amnesia

Dementia

Electroconvulsive Therapy

Head Injuries

Alcohol Use

Trauma or Stress

Anoxia

# Amnesia

## Amnesia:

*Memory and Amnesia* Alan J. Parkin, 1997 Provides a clear and comprehensive account of amnesia set in the context of our understanding of how normal memory operates Shamanic Trance and Amnesia Ina Rösing, Sonam Norboo Spurkha, 2006 *Theories of Organic Amnesia* Andrew Richard Mayes, John Joseph Downes, 1997 Enough has been learnt about the organic amnesia syndrome for research to be driven by theoretical ideas about the possible causes of the memory deficits underlying it These theoretical ideas attempt to specify whether one or several distinct functional deficits cause the memory problems typically seen in the syndrome what the precise nature of these deficits actually is and what is the exact location of the lesions that cause them This special issue of *Memory* is devoted to articles that advance different accounts of some or all of the features of amnesia It highlights that although there is still no full agreement about the neuroanatomy of amnesia whether it is a unitary condition and the causes of and relationship between anterograde and retrograde amnesia many theories converge in suggesting that damage to the hippocampus and its connections disrupts aspects of memory for complex associations that are ultimately represented in the neocortex *Amnesia* Andrew Neiderman, 2001-12-17 What would you do if you couldn't remember who you were where you lived or what you might have done Rush hour Grand Central Station Aaron Clifford stops dead in his tracks commuters swirling around him but he doesn't know he's Aaron Clifford He doesn't know who he is at all No matter how hard he tries he has no memory of why he is there where he came from or where he's going It's impossible maddening but it's true The clues came slowly from his surroundings from his wallet from the taste of dry martini still on his lips Soon Aaron Clifford will piece together the keys to his life With that relief will come cold blooded fear as he learns more than he ever knew before Things he shouldn't know Things he doesn't want to know Things that could get him killed **Epilepsy with Retrograde Amnesia** Edward Spencer Cowles, 1900 Amnesia and Analgesia in Parturition Alfred Myer Hellman, 1915 *Forever Today* Deborah Wearing, 2005-01 Clive Wearing is one of the most famous extreme cases of amnesia ever known In 1985 a virus completely destroyed the memory part of his brain leaving him trapped in a limbo of the constant present Since then every conscious moment for him is as if he has just woken from a ten year coma repeated in an endless loop A brilliant conductor and BBC music producer Clive was at the height of his success when the illness struck For seven years he was kept in the general ward in the London hospital where the ambulance first dropped him off because there was nowhere else for him to go His wife Deborah campaigned for better conditions hopelessly searched for a cure and in her quest to find answers founded a national charity As damaged as Clive was the musical part of his brain was unaffected as was his passionate love for Deborah Finding there was no way to bring Clive back home Deborah eventually listened to the friends who counselled her to get away and she fled to America to start her life again She initiated a divorce fell for other men but found it difficult to forget her love for Clive Then miraculously in their transatlantic phone calls she noticed Clive starting to recover some of his memory and she was pulled back to England Today

although he still lives in care they are closer than ever and they renewed their marriage vows in 2002

**Remembering**  
 Donald G. MacKay, 2019 This book summarizes the results of a revolution in the scientific understanding of memory mind and brain that began in 1953 when a twenty seven year old man underwent brain surgery to remedy life threatening epilepsy His name was Henry Molaison but until recently the general public knew him only as H M Henry s operation inadvertently destroyed his hippocampus the brain s engine for forming new memories He suffered catastrophic memory failures for the rest of his life Henry soon became the most studied amnesiac patient in the history of the world and also the most famous Dr MacKay worked with Henry for fifty years This book focuses primarily on the lessons of the still ongoing revolution that Henry inspired for readers wishing to maintain the everyday functioning of their memory mind and brain The research done with Henry has shown how to keep memory sharp at any age and acquire ways to offset the degradation that aging and infrequent use inflict on memory It has also given scientists insights into the different types of memory for example memories of events facts skills words and visual experiences and the likelihood of forgetting each type of memory Finally it has revealed the profound importance of memory memory decline impacts even such seemingly unrelated aspects of mind as the ability to plan to comprehend to detect and correct errors to appreciate humor to perceive the visual world to imagine hypothetical events and to create novel ideas Written in an accessible style this engaging narrative combines personal vignettes into Henry s life with important new findings about memory and brain functions

**Report from the Department of Pathology and the Department of Clinical Psychiatry, Central Indiana Hospital for the Insane. 1903-1906-1917-1918 and 1918-1919** Central Indiana Hospital for the Insane, 1916 **Journal of Mental Pathology**, 1903 *New York Medical Journal, and Philadelphia Medical Journal*, 1919 Program [of The] Annual Meeting American Medico-Psychological Association, 1904 **International Record of Medicine and General Practice Clinics** Edward Swift Dunster, Frank Pierce Foster, James Bradbridge Hunter, Charles Eucharist de Medicis Sajous, Gregory Stragnell, Henry J.
