Analysis and Performance of Fiber Composites Bhagwan D. Agarwal, Lawrence J. Broutman, K. Chandrashekhara, 2006-07-11 Publisher description Analysis and Performance of Fiber Composites Bhagwan D. Agarwal, Lawrence J. Broutman, K. Chandrashekhara, 2017-09-26 Updated and expanded coverage of the latest trends and developments in fiber composite materials processes and applications Analysis and Performance of Fiber Composites Fourth Edition features updated and expanded coverage of all technical aspects of fiber composites including the latest trends and developments in materials manufacturing processes and materials applications as well as the latest experimental characterization methods Fiber reinforced composite materials have become a fundamental part of modern product manufacturing Routinely used in such high tech fields as electronics automobiles aircraft and space vehicles they are also essential to everyday staples of modern life such as containers piping and appliances Little wonder when one considers their ease of fabrication outstanding mechanical properties design versatility light weight corrosion and impact resistance and excellent fatigue strength This Fourth Edition of the classic reference the standard text for composite materials courses worldwide offers an unrivalled review of such an important class of engineering materials Still the most comprehensive up to date treatment of the mechanics materials performance analysis fabrication and characterization of fiber composite materials available Analysis and Performance of Fiber Composites Fourth Edition features Expanded coverage of materials and manufacturing with additional information on materials processes and material applications Updated and expanded information on experimental characterization methods including many industry specific tests Discussions of damage identification techniques using nondestructive evaluation NDE Coverage of the influence of moisture on performance of polymer matrix composites stress corrosion of glass fibers and glass reinforced plastics and damage due to low velocity impact New end of chapter problems and exercises with solutions found on an accompanying website Computer analysis of laminates No other reference provides such exhaustive coverage of fiber composites with such clarity and depth Analysis and Performance of Fiber Composites Fourth Edition is without a doubt an indispensable resource for practicing engineers as well as students of mechanics mechanical engineering and aerospace engineering Visit the Companion Website at <https://www.wiley.com/WileyCDA/Section/id-830336.html>

Analysis and Performance of Fiber Composites Bhagwan D. Agarwal, Lawrence J. Broutman, 1990-10-08 Having fully established themselves as workable engineering materials composite materials are now increasingly commonplace around the world Serves as both a text and reference guide to the behavior of composite materials in different engineering applications Revised for this Second Edition the text includes a general discussion of composites as material practical aspects of design and performance and further analysis that will be helpful to those engaged in research on composites Each chapter closes with references for further reading and a set of problems that will be useful in developing a better understanding of the subject
