

PRIMAVERA EARNED VALUE MANAGEMENT

KEY FEATURES

- Comprehensive cost and earned-value management
- Integrated cost and schedule information
- Ability to understand and communicate key performance indicators
- Support for government standards for measuring performance

KEY BENEFITS

- Align the project portfolio with your company's strategic business objectives
- Use role-based alignment to complete projects faster and more efficiently
- Accurately measure both cost and schedule performance
- Analyze and present project performance data
- Increase program visibility through effective, streamlined communication with all stakeholders

With government standards and securities laws increasing pressure to adopt stringent cost and earned-value standards, many organizations now recognize the need to incorporate comprehensive cost management and earned-value capabilities into their project portfolio management systems. Oracle's Primavera Earned Value Management integrates detailed cost information with your program schedule, by aligning and combining project performance data from cost and schedule systems, adding complex burdening rates, and tracking committed cost.

Comprehensive Cost and Earned-Value Management

Primavera Earned Value Management adds extensive earned-value capabilities, helping organizations better manage project costs; measure earned value; and analyze budget, actual, forecast, and performed costs. Without a comprehensive earned-value process, troubled projects can spiral out of control before anyone even recognizes a problem. With Primavera Earned Value Management, organizations can generate the statistically accurate estimates needed to understand and communicate project performance while there is still time to address and deal with issues.

With Primavera Earned Value Management, you can create an effective project portfolio management process that

- Aligns the project portfolio with strategic business objectives
- Completes projects faster and more efficiently through role-based alignment
- Accurately measures both cost and schedule performance
- Analyzes and presents project performance data
- Increases program visibility through effective and streamlined communication with all stakeholders
