## **A.P. Biology Genetics Problem Set III** **Sex Linkage and other stuff Mendel never dreamed of...**

ALL WORK MUST BE SHOWN TO RECEIVE FULL CREDIT. ATTACH YOUR SCRATCH PAPER, NUMBER THE PROBLEMS, AND CIRCLE YOUR ANSWERS.

1. A couple really wants to have at least one child of each sex. Their first three children are girls, so they feel certain that their next child will definitely be a boy. But...what are the chances of this offspring (or of any offspring) being a boy?
2. Hemophilia or "bleeder's disease" is a recessive, sex-linked condition. It is possible for women to be hemophiliacs, but it is more common among men.
  - a. For a woman to be hemophiliac, what must her dad's phenotype and genotype have been?
  - b. There are two possibilities for her mother's genotype and phenotype – give both.
3. At least one type of colorblindness is a sex-linked, recessive condition. A colorblind man marries a woman with a long family history of normal color vision. What will the vision of their children be like? (Assume they have a big family so all "possible" types of kids show up.)
4. A husband and his wife both have normal vision, but their baby girl is colorblind. Because he knows that colorblindness is a sex-linked, recessive trait, the husband is FURIOUS and immediately sues his wife for divorce on grounds of infidelity. YOU, as a world famous GENETICS COUNSELOR, have been served a subpoena to testify in court as an expert witness! Could the baby have been theirs, or must she have been cheating on him?
5. A colorblind man wonders if he "got" his colorblindness allele from his mother or his father. Could knowledge of genetics provide an answer to his question? Remember, colorblindness is a sex-linked, recessive condition.
6. One type of baldness is a sex-linked trait. The gene for baldness (B = has hair, b = bald) is NOT on a sex chromosome, but the person's sex does influence the expression of this trait. All BB individuals have hair, and all bb individuals go bald, but (due to hormonal differences) Bb women have hair while Bb men go bald. A bald man and a seemingly normal woman have a son who keeps his
