Formation Attacks Joel Johnson,2010 As a Chess Master who has spent many years playing aggressive and attacking chess I was quite dismayed during a recent visit to my local bookstore I was in search of a book that covered an array of attacks against many Pawn formations in an organized fashion Needless to say my search came up empty The books on attacking fell short in many ways Many of the books were simply a small collection of attack games with no instruction about the art of attacking or about the skills required to become a great attacker None of them provided the reader with any reference information about attacking or the weaknesses of various Pawn formations None of them contained games with attacking themes like the Traxler Variation of the Two Knight s Defense and the Jack Young Fishing Pole None of them contained any wild attacking ideas that can stream from opening gambits such as the Blackmar Diemer Gambit King s Gambit Scotch Gambit Nakhmanson Gambit etc 500 pages 435 games Figurine Chess Notation
