English for Accounting Diota Prameswari Vijaya, Nyoman Suadnyana Pasek, M. Rudi Irwansyah, 2025-10-10 English for Accounting is a textbook designed to help students and readers understand accounting concepts while enhancing their English skills in the context of accounting and business. The book begins with a discussion of basic accounting concepts including definitions, the role of accounting users, accounting information, financial accounting standards in Indonesia, and the conceptual framework and basic assumptions of accounting. Next, the book explains the basic accounting equation and its use in analysing financial transactions, as well as understanding accounting policies, estimates, and errors. The discussion then proceeds to financial statements and annual reports, including the preparation process and the parties that utilize the information. The book also introduces career opportunities in accounting, the challenges of the accounting profession, and insights into entrepreneurship and its role in the economy. Furthermore, readers are introduced to financial institutions, both banking and non-banking, and the various important components in reporting and recording accounting transactions. In subsequent sections, the book discusses the development of digital accounting and the use of accounting software investment concepts, including the role of the Indonesia Stock Exchange and an introduction to audits and their types. The book concludes with material on budgeting and the role of budget analysts in organizational financial management. Each chapter is equipped with exercises to help readers deepen their understanding and apply the use of English in an accounting context practically and systematically.
