Mobilising Design Justin Spinney, Suzanne Reimer, Philip Pinch, 2017-02-24 This book brings together research working at the boundary between design knowledges and mobilities offering a novel collection for both theorists and practitioners. Drawing upon detailed case studies it demonstrates the diverse roles of design in shaping mobility at different spaces and scales across cities within different types of buildings and infrastructures and through commuting work and leisure activities. A range of international scholars illustrate the designed mobilities of car parks, traffic lights, street benches, pedestrian wayfinding systems and accessible design in the urban environment.
