Project Report On Pepsi:

Soda Politics Marion Nestle, 2015-09-07 Sodas are astonishing products Little more than flavored sugar water these drinks cost practically nothing to produce or buy yet have turned their makers principally Coca Cola and PepsiCo into a multibillion dollar industry with global recognition distribution and political power Billed as refreshing tasty crisp and the real thing sodas also happen to be so well established to contribute to poor dental hygiene higher calorie intake obesity and type 2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them Habitually drinking large volumes of soda not only harms individual health but also burdens societies with runaway healthcare costs So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons while also having a devastating impact on public health In Soda Politics the 2016 James Beard Award for Writing Coca Cola and PepsiCo spend billions of dollars each year to promote their sale to children minorities and low income populations in developing as well as industrialized nations And once they have stimulated that demand they leave no stone unturned to protect profits That includes lobbying to prevent any measures that would discourage soda sales strategically donating money to health organizations and researchers who can make the science about sodas appear confusing and engaging in Corporate Social Responsibility CSR activities to create goodwill and silence critics Soda Politics follows the money trail wherever it leads revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world But Soda Politics does more than just diagnose a problem it encourages readers to help find solutions From Berkeley to Mexico City and beyond advocates are successfully countering the relentless marketing promotion and political protection of sugary drinks And their actions are having an impact for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo soda consumption has been flat or falling for years Health advocacy campaigns are now the single greatest threat to soda companies profits Soda Politics provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems Report of Coker Commission of Inquiry Into the Affairs of Certain Statutory Corporations in Western Nigeria, 1962 Nigeria. European Climate Diplomacy in the USA and China Katrin Buchmann,2022-08-22 Buchmann analyses the work of UK German Danish and Swedish embassies in the USA and China on climate change in the late 2000s and early 2010s She relates which coalitions and narratives embassies sought to develop to convince China and the United States that a more progressive climate policy was possible to achieve gains supporting an agreement under the UNFCCC This book shows that a key interpretation of climate diplomacy was selling trade Europe selling technology solutions to solve climate change In this narrative Europe has already done what needs to be done and outsourcing of production to China e g is ignored In the USA embassies entered coalitions with states faith groups and the military arguing that a more progressive climate policy was mandated by either God or security concerns State politicians including Democrats often actually didn t implement any climate policies Any gains were reversed through climate denial lobbying funded by corporations Embassies did not address this **The Real Pepsi, the Real Story** Rajendar Dara,1991 **The Social, Economic and Ecological Impact of Trade Liberalisation Policies in India** ,1994 **Philippine Business Report** ,2005 **Efficient and Enhanced Management of Plastic Waste in India** Paromita Chakraborty,Girija K.
