The Legal Architecture of English Cathedrals Norman Doe,2017-08-15 This original book is a comprehensive richly documented and critical examination of laws applicable to Anglican cathedrals in England some of the most iconic monuments in the national heritage and centres of spiritual and cultural capital Law is the missing link in the emerging field of cathedral studies The book fills this gap It explores historical antecedents of modern cathedral law traces aspects of them that still endure and explains the law with particular reference to the recommendations of the Archbishops Commission on Cathedrals 1994 which led to the most radical changes in the legal history of these churches since the Reformation culminating in the Cathedrals Measure 1999 and associated later legislation The book compares the domestic constitutions and statutes of all the cathedrals of the Church of England today old foundations new foundations and parish church cathedrals as well as policies and guidelines applicable to or adopted by them Whilst national law acts as a fundamental unifying force there is considerable diversity as between these in terms of the breadth and depth of their coverage of topics In the socio legal tradition the book also explores through interviews with clergy and others at half of the cathedrals how laws are experienced in practice These reveal that whilst much of the law is perceived as working well there are equally key areas of concern To this end the book proposes areas for further research and debate with a view to possible reform Taking an architectural feature of cathedrals as the starting point for each chapter from cathedral governance through mission ministry music and education to cathedral property what emerges is that law and architecture have a symbiotic relationship so that a cathedral is itself a form of juristecture

Cathedrals of Britain:

London and the South East Bernadette Fallon,2018-01-31 Pointing persistently to heaven A guide to UK cathedrals Power glory bloodshed prayer cathedrals in the UK are as much about human drama as spiritual sanctuary as much about political wrangling as religious fervour From Christian beginnings in the Middle Ages through Reformation Renaissance and Modernity the great cathedrals of Britain have been both battleground and place of quiet reflection created for the glory of

Book Two London and the South East Four out of six of the cathedrals in this book were created for God and the Church of Rome five now answer to the Queen of England And the seventh isn't in fact a cathedral at all though you'll see why it takes its place among these hallowed buildings From tiny timber churches that grew into magnificent cathedrals from a Catholic faith turned Protestant the story of these cathedrals some of the foremost in Britain is tumultuous awe inspiring and splattered with violence They count among their numbers the oldest cathedral in England and the oldest religious sites in Britain Many were established in the glory days of cathedral building under the rule of William the Conqueror from the 11th century But their foundations go back much earlier to small churches priories and monasteries Some may have been Roman temples Pre dating that it's likely many were Pagan shrines and places of worship

St. Paul's Cathedral from Past to Present Silke Lübbert, 2007-08 Seminar paper from the year 2004 in the subject English Language and Literature Studies Culture and Applied Geography grade 2.7 University of Paderborn Institut für Anglistik course London the urban experience 9 entries in the bibliography language English abstract When most people think of St Paul's Cathedral in London the image of Christopher Wren's magnificent classical church rises in their minds but there was a cathedral dedicated to St Paul long before the construction of Wren's cathedral This paper is going to show how St Paul's Cathedral became what it is today and what a church can be apart from a place for sermons Cathedrals have always

played more than one role in the communities they serve Their central purpose is to bring people closer to God but over the centuries they have served as a focal point for trade as fortresses and sanctuaries in times of war and as vast status symbols reflections of wealth and power of the region in which they stand These functions take on an additional significance for St Paul s the cathedral of the capital city and also of the nation Today s Church belongs to the people of the nation For example every citizen can be married or have a funeral service in his or her parish church priests can marry couples without the presence of a civil official and the General Synod the Church of England s governing body is the only organisation outside Parliament that has the power to legislate Cathedrals are perhaps the ultimate reflection of this inclusiveness Unlike parish churches which exist to minister to the people of the local area in which they stand they are a route to God for the larger community a place of celebration and mourning where feelings can be shared and the sheer scale and beauty of the architecture services and music allows visitors to experience the serenity and spirituality that are an essential counterpoint to the bustle of everyday life
