**Biotechnology and Society** Hallam Stevens, 2016-10-06 With Biotechnology and Society Hallam Stevens offers an up to date primer to help us understand the interactions of biotechnology and society and the debates controversies fears and hopes that have shaped how we think about bodies organisms and life in the twenty first century Stevens addresses such topics as genetically modified foods cloning and stem cells genetic testing and the potential for discrimination fears of and in some cases hopes for designer babies personal genomics biosecurity and biotech art Taken as a whole the book presents a clear authoritative picture of the relationship between biotechnology and society today and how our conceptions and misconceptions of it could shape future developments It is an essential volume for students and scholars working with biotechnology while still being accessible to the general reader interested in the truth behind breathless media accounts about biotech's promise and perils

**The Sexual Politics of Meat - 25th Anniversary Edition** Carol J. Adams, 2015-10-29 The Sexual Politics of Meat is Carol Adams inspiring and controversial exploration of the interplay between contemporary society's ingrained cultural misogyny and its obsession with meat and masculinity First published in 1990 the book has continued to change the lives of tens of thousands of readers into the second decade of the 21st century Published in the year of the book's 25th anniversary the Bloomsbury Revelations edition includes a substantial new afterword including more than 20 new images and discussions of recent events that prove beyond doubt the continuing relevance of Adams revolutionary book

**The Sexual Politics of Meat** Carol J. Adams, 2015-10-22 Many cultures equate meat eating with virility and in some societies women offer men the best i.e. bloodiest food at the expense of their own nutritional needs Building upon these observations feminist activist Adams detects intimate links between the slaughter of animals and violence directed against women She ties the prevalence of a carnivorous diet to patriarchal attitudes such as the idea that the end justifies the means and the objectification of others In Frankenstein Mary Shelley made her Creature a vegetarian a point Adams relates to the Romantics radical politics and to visionary novels by Charlotte Perkins Gilman Dorothy Bryant and others Adams who teaches at Perkins School of Theology

Dallas sketches the alliance of vegetarianism and feminism in antivivisection activism the suffrage movement and 20th century pacifism Her original provocative book makes a major contribution to the debate on animal rights Writer activist university lecturer Adams s important and provocative work compares myths about meat eating with myths about manliness and explores the literary scientific and social connections between meat eating male dominance and war Drawing on such diverse sources as butchering texts cookbooks Victorian hygiene manuals and Alice Walker the author provides a compelling case for inextricably linking feminist and vegetarian theory This book is likely to both inspire and enrage readers across the political spectrum we learn for example that veal was served at Gloria Steinem s 50th birthday as well as of the atrocities of the slaughterhouse One wishes Adams had been more careful about documenting some of her claims her contention for instance that early humans were entirely vegetarian requires scholarly support Nevertheless this is recommended for both public and academic collections

Bearing with Strangers Morten T. Korsgaard,2018-11-01 Bearing with Strangers looks at inclusion in education in a new way regarding education as a discipline with practical and theoretical concepts and criteria which emanate from education and schooling itself By introducing the notion of the instrumental fallacy it shows how this is not only an inherent feature of inclusive education policies but also omnipresent in modern educational policy It engages schooling through an Arendtian framework constituted by and in a specific practice with the aim of mediating between generations It outlines a didactic and pedagogical theory that presents inclusion not as an aim for education but as a constitutive feature of the activity of schooling Drawing on the work of Hannah Arendt the book offers a novel and critical perspective on inclusive education as well as a contribution to a growing literature re engaging didactic and pedagogical conceptions of teaching and the role of the teacher Schooling is understood as a process of opening the world to the young and of opening the world to the renewal that the new generations offer The activity of schooling offers the possibility of becoming attentive toward what is common while learning to bear with that which is strange and those who are strangers The book points to valuable metaphors and ideas referred to in the book as pearls that speak to the heart of what schooling and teaching concerns Bearing with Strangers will be of great interest to academics researchers and post graduate students in the fields of philosophy of education inclusive education and educational policy
