

Chapter 6 Social Fragmentation World Bank

Dimitri Van Den Meerssche

Chapter 6 Social Fragmentation World Bank:

The World Bank's Lawyers Dimitri Van Den Meerssche, 2022-09-12 The World Bank's Lawyers provides an original socio-legal account of the evolving institutional life of international law. Informed by oral archives, months of participant observation, interviews, legal memoranda, and documents obtained through freedom of information requests, it tells a previously untold story of the World Bank's legal department between 1983 and 2016. This is a story of people and the beliefs they have, the influence they seek, and the tools they employ. It is an account of the practices they cling to and how these practices gain traction or how they fail to do so in an international bureaucracy. Inspired by actor-network theory, relational sociologies of association, and performativity theory, this ethnographic exploration multiplies the matters of concern in our study of international law and lawyering: the human and non-human material and semantic, visible and evasive actants that tie together the fragile fabric of legality. In tracing these threads, this book signals important changes in the conceptual repertoire and materiality of international legal practice as liberal ideals were gradually displaced by managerial modes of evaluation. It reveals a world teeming with life, a space where professional postures and prototypes, aesthetic styles, and technical routines are woven together in law's shifting mode of existence. This history of international law as a contingent cultural technique enriches our understanding of the discipline's disenchantment and the displacement of its traditional tropes by unexpected and unruly actors. It thereby inspires new ways of critical thinking about international law's political pathways, promises, and pathologies as its language is inscribed in ever-evolving rationalities of rule. **Practicing**

Ethnography in a Globalizing World June C. Nash, 2007 In this book, distinguished anthropologist June Nash demonstrates how ethnography can illuminate a wide array of global problems. She describes encounters with an urban U.S. community undergoing de-industrialization, with Mandalay rice cultivators accommodating to post-World War II independence through animistic practices, with Mayans mobilizing for autonomy, and with Andean peasants and miners confronting the International Monetary Fund. Having worked in a great variety of cultural settings around the world, Nash challenges us to expand our anthropological horizons and to think about local problems in a global manner. **Global Productivity** Alistair

Dieppe, 2021-06-09 The COVID-19 pandemic struck the global economy after a decade that featured a broad-based slowdown in productivity growth. Global Productivity Trends: Drivers and Policies presents the first comprehensive analysis of the evolution and drivers of productivity growth, examines the effects of COVID-19 on productivity, and discusses a wide range of policies needed to rekindle productivity growth. The book also provides a far-reaching data set of multiple measures of productivity for up to 164 advanced economies and emerging market and developing economies, and it introduces a new sectoral database of productivity. The World Bank has created an extraordinary book on productivity covering a large group of countries and using a wide variety of data sources. There is an emphasis on emerging and developing economies, whereas the prior literature has concentrated on developed economies. The book seeks to understand growth patterns and quantify

the role of among other things the reallocation of factors technological change and the impact of natural disasters including the COVID 19 pandemic This book is must reading for specialists in emerging economies but also provides deep insights for anyone interested in economic growth and productivity Martin Neil Baily Senior Fellow The Brookings Institution Former Chair U S President s Council of Economic Advisers This is an important book at a critical time As the book notes global productivity growth had already been slowing prior to the COVID 19 pandemic and collapses with the pandemic If we want an effective recovery we have to understand what was driving these long run trends The book presents a novel global approach to examining the levels growth rates and drivers of productivity growth For anyone wanting to understand or influence productivity growth this is an essential read Nicholas Bloom William D Eberle Professor of Economics Stanford University The COVID 19 pandemic hit a global economy that was already struggling with an adverse pre existing condition slow productivity growth This extraordinarily valuable and timely book brings considerable new evidence that shows the broad based long standing nature of the slowdown It is comprehensive with an exceptional focus on emerging market and developing economies Importantly it shows how severe disasters of which COVID 19 is just the latest typically harm productivity There are no silver bullets but the book suggests sensible strategies to improve growth prospects John Fernald Schrodgers Chaired Professor of European Competitiveness and Reform and Professor of Economics INSEAD

Development Economics Alain de Janvry, Elisabeth Sadoulet, 2021-05-30 This second edition of Development Economics Theory and Practice continues to provide students and practitioners with the perspectives and tools they need to think analytically and critically about the current major economic development issues in the world Alain de Janvry and Elisabeth Sadoulet identify seven key dimensions of development growth poverty vulnerability inequality basic needs sustainability and quality of life and use them to structure the contents of the text The book gives a historical perspective on the evolution of thought in development It uses theory and empirical analysis to present readers with a full picture of how development works how its successes and failures can be assessed and how alternatives can be introduced The authors demonstrate how diagnostics design of programs and policies and impact evaluation can be used to seek new solutions to the suffering and violence caused by development failures In the second edition more attention has been given to ongoing developments such as pursuit of the Sustainable Development Goals continuously rising global and national inequality health as a domestic and international public good cash transfers for social protection carbon trading for sustainability This text is fully engaged with the most cutting edge research in the field and equips readers with analytical tools for impact evaluation of development programs and policies illustrated with numerous examples It is underpinned throughout by a wealth of student friendly features including case studies quantitative problem sets end of chapter questions and extensive references Excel and Stata exercises are available as digital supplements for students and instructors This unique text is ideal for those taking courses in development economics economic growth and development policy and will provide an excellent foundation for those

wishing to pursue careers in development *Public Health in the Arab World* Samer Jabbour,2012-03-08 This volume reviews the public health concerns and challenges specific to the complex Arab world from a multidisciplinary perspective

The Autocrat's Predicament Timothy R. Heath,2023-11-03 In their quest for national revival China's leaders under Xi Jinping have sought to improve the economy's performance The disappointing economic record of authoritarian regimes provides ample grounds for doubt yet not all have failed Why have some succeeded where most did not The theory of the enabling condition highlights the central role that politics plays in the pursuit of economic advancement The theory explains that a political situation characterized by a strong central leadership weak elite opposition and a united public offers favorable prospects for enacting concentrated growth policies This arrangement enables the central leadership to enlist the public in convincing elites to implement policies that they might otherwise resist Focusing on the experience of single party authoritarian regimes *The Autocrat's Predicament: The Political Peril of Economic Upgrade in Single Party Authoritarian Regimes* examines episodes in the histories of the People's Republic of China Taiwan and the Soviet Union It concludes that China's unfavorable political situation could be potentially unfriendly for its ambitions to build an efficient highly productive economy

Land Fragmentation in Agriculture Malcolm F. McPherson,1983 *Oxford Textbook of Global Public Health* Roger Detels,Martin Gulliford,Quarraisha Abdool Karim,Chorh Chuan Tan,2017 Sixth edition of the hugely successful internationally recognised textbook on global public health and epidemiology comprehensively covering the scope methods and practice of the discipline

The Water Problem Pat Mulroy,2017-03-28 Building water resilience is the single biggest challenge in a changing global climate The United States faces a water crisis as critical as the energy crisis that once dominated headlines Like the energy crisis a solution can be found Pat Mulroy for many years general manager of the Southern Nevada Water Authority the lead negotiator on the Colorado River for the State of Nevada and a Brookings fellow has gathered a number of practitioners and scholars to show us why we face a crisis caused by climate change and what we can do to alleviate it While the focus recently has been on California with its water restrictions and drought many other parts of the United States are also suffering from current and potential water shortages that will only be exacerbated by climate change *The Water Problem* takes us to Miami and the problem of rising oceans fouling freshwater reservoirs Kansas and Nebraska where intensive farming is draining age old aquifers and to the Southwest United States where growing populations are creating enormous stresses on the already strained Colorado River Mulroy and her contributors explore not just the problems but also what we can do now to put in place measures to deal with a very real crisis

World Bank Economic Review Volume 11 World Bank Staff,1997 [Reducing Inequality for Shared Growth in China](#) World Bank,2011 The report recommends an overall strategy and specific policy measures to eliminate absolute poverty reduce inequality in opportunities and contain inequality in development outcomes [The World Bank and the Environment](#) World Bank,1993

The International Labour Organization and the Quest for Social Justice, 1919-2009 Gerry Rodgers,2009 This book tells

the story of the International Labour Organization founded in 1919 in the belief that universal and lasting peace goes hand in hand with social justice Since then the ILO has contributed to the protection of the vulnerable the fight against unemployment the promotion of human rights the development of democratic institutions and the improvement of the working lives of women and men everywhere In its history the ILO has sometimes thrived sometimes suffered setbacks but always survived to pursue its goals through the political and economic upheavals of the last 90 years World Agricultural Economics and Rural Sociology Abstracts ,2000 Globalization and Society Raymond Breton,Jeffrey G. Reitz,2003-12-30 Globalization has been defined as a process in which the population of the world is increasingly bonded into a single society Although none of the contributors to this collection denies the thrust toward convergence that is implicit in globalizing processes each contributor also concludes that globalization encourages differentiation Integration in the global system is not a passive process In different nations people analyze and interpret what is happening and respond by developing policies forming new institutions and changing existing ones They adopt broad cultural models in order to function effectively in the larger system and they also draw upon their particular traditions values institutions and resources to define a place that will be to their advantage economically politically and socio culturally As the studies presented in this book show integration in the world system may benefit a given society or may harm it it may entail changes to a society s culture but does not obliterate a society s distinctive characteristics U.S. Foreign Policy: the Paradox of World Power, 2nd Edition Steven W Hook,2008 An in depth overview of US foreign policy that highlights a process that is shaped by a paradox that the very sources of national strength a sense of national exceptionalism a diffusion of political powers and more also create vulnerabilities for the United States Includes an array of features to aid student learning About the Author Steven W hook is an associate professor of political science at Kent State University *Comparative Political Economy* Jan-Erik Lane,Svante O. Ersson,1990 **Trade and Gender Linkages: an Analysis of Central America** Bengi Yanik-Ilhan,2020 This document is the eighth module in volume 1 of the teaching manual on trade and gender prepared by the United Nations Conference on Trade and Development UNCTAD The teaching manual has been developed with the aim of enhancing the capacity of policymakers civil society organizations and academics to assess the gender implications of trade flows and trade policy and to formulate gender sensitive policies on gender and trade page 2 **A Report on the Poverty and Social Impact Analysis (PSIA) of the Uganda National Land Use Policy** Uganda. Ministry of Finance, Planning, and Economic Development,2009 **Social Origins of Development and Underdevelopment** Letitia Lawson,1995
