Cities And Development Routledge Perspectives On Development:

Cities and Development Jo Beall, Sean Fox, 2009 This book provides a critical analysis of the contribution of cities to social political and economic development and highlights the key challenges facing urban policy makers and planners

Cities and Development Sean Fox, Tom Goodfellow, 2016-02-11 For the first time in human history more people now live in towns and cities than in rural areas In the wealthier countries of the world the transition from predominantly rural to urban habitation is more or less complete But in many parts of Africa Asia and Latin America urban populations are expanding rapidly Current UN projections indicate that virtually all population growth in the world over the next 30 years will be absorbed by towns and cities in developing countries These simple demographic facts have profound implications for those concerned with understanding and addressing the pressing global development challenges of reducing poverty promoting economic growth improving human security and confronting environmental change This revised and expanded second edition of *Cities and Development* explores the dynamic relationship between urbanism and development from a global perspective The book surveys a wide range of topics including the historical origins of world urbanization the role cities play in the process of economic development the nature of urban poverty and the challenge of promoting sustainable livelihoods the complexities of managing urban land housing infrastructure and urban services and the spectres of endemic crime conflict and violence in urban areas This updated volume also contains two entirely new chapters one that examines the links between urbanisation and environmental change and a second that focuses on urban governance and politics Adopting a multidisciplinary perspective the book critically engages with debates in urban studies geography and international development studies Each chapter includes supplements in the form of case studies chapter summaries questions for discussion and suggested further readings The book is targeted at upper level undergraduate and graduate students interested in geography urban studies and international development studies as well as policy makers urban planners and development practitioners

Urban and Regional Planning and Development Rajiv R. Thakur, Ashok K. Dutt, Sudhir K. Thakur, George M. Pomeroy, 2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers
