Classifying the Periodic Table Grids

Do you see a relationship between the two grids?

Why?

In addition, the periodic table has been divided into groups. The organization of the table appears to be according to the type of ion an element will form. Identify ion formation for elements 1-18 in the table. The periodic table is organized by properties, both chemical and physical. The organization is based on the electron configuration of the atoms of each element. All atoms of an element have the same number of protons, but the number of neutrons and electrons can vary. The periodic table is organized by properties, both chemical and physical.
