## Chapter 23 Mankiw:

From Economics to Political Economy Tim B. Thornton, 2016-07-22 The discipline of economics has been increasingly criticized for its inability to illuminate the workings of the real world and to provide reliable policy guidance for the major economic and social challenges of our time A central problem in contemporary economics and a problem from which many of its other failings flow is its lack of plurality By a lack of plurality it is meant that contemporary economics lacks diversity in its methods theories epistemology and methodology It is also meant that economics has become far less interdisciplinary From Economics to Political Economy offers an explanation as to why economics has become so determinedly non pluralistic and also gives considerable attention to exploring and evaluating promising strategies for reform These strategies include developing a pluralist economics under the label of political economy within other social science departments such as departments of politics Along the way the reader will learn about the worldwide student movement seeking greater pluralism in economics encounter some dramatic case studies in intellectual suppression gain a fuller sense of the nature of contemporary economics and explore the relationship between economics and other social sciences This book is of interest to any social scientist particularly those with interests in economics and politics

### **Combating Inequality** Olivier

Blanchard, Dani Rodrik, 2023-08-15 Leading economists and policymakers consider what economic tools are most effective in reversing the rise in inequality Economic inequality is the defining issue of our time In the United States the wealth share of the top 1% has risen from 25% in the late 1970s to around 40% today The percentage of children earning more than their parents has fallen from 90% in the 1940s to around 50% today In Combating Inequality leading economists many of them current or former policymakers bring good news we have the tools to reverse the rise in inequality In their discussions they consider which of these tools are the most effective at doing so The contributors express widespread agreement that we need to aim policies at economic inequality itself deregulation and economic stimulus will not do the job No longer does anyone ask in relation to expanded social programs Can we pay for it And most believe that US taxes will have to rise although they debate whether the progressivity should focus on the revenue side or the expenditure side through broad based taxes like the VAT or through a wealth tax aimed at the very top of the income scale They also consider the philosophical aspects of inequality whether it is bad in itself or because of its consequences the risks and benefits of more radical interventions to change the nature of production and trade and future policy directions Contributors Daron Acemoglu Philippe Aghion Danielle Allen Ben Ansell David Autor Sheri Berman Marianne Bertrand Olivier Blanchard Lucas Chancel William Darity Jr Peter Diamond Christian Dustmann David T Ellwood Richard Freeman Caroline Freund Jason Furman Hilary Hoynes Lawrence F Katz Wojciech Kopczuk N Gregory Mankiw Nolan McCarty Dani Rodrik Jesse Rothstein Emmanuel Saez T M Scanlon Heidi Shierholz Tharman Shanmugaratnam Stefanie Stantcheva Michael Stynes Laura D Andrea Tyson Philippe Van Parijs Gabriel Zucman
