Discourse in Organizations and Workplaces

Britt-Louise Gunnarsson

This chapter focuses on discourse in organizations and workplaces and will discuss a number of studies which explore the complexity and diversity of communication in modern working life. For employees this new situation has come to entail different and higher demands for literacy and communicative skills.

The purpose of this chapter is to deepen our understanding of the discourse-related problems facing managers and employees in the globalized economy. In the various sections of the chapter I discuss these problems from different viewpoints. First, I explore the correspondence between organizational structure and discourse at a more general level, where I use examples from analysis of small
