**The New York Times Book Review**, 1982      **The Commonwealth**, 1978      **Archaeology, Narrative, and the Politics of the Past** Julia A. King, 2026-10-25 In this innovative work Julia King moves nimbly among a variety of sources and disciplinary approaches archaeological historical architectural literary and art historical to show how places take on convey and maintain meanings Focusing on the beautiful Chesapeake Bay region of Maryland King looks at the ways in which various groups from patriots and politicians of the antebellum era to present day archaeologists and preservationists have transformed key landscapes into historical indeed sacred spaces The sites King examines include the region's vanishing tobacco farms St Mary's City established as Maryland's first capital by English settlers in the seventeenth century and Point

Lookout the location of a prison for captured Confederate soldiers during the Civil War As the author explores the historical narratives associated with such places she uncovers some surprisingly durable myths as well as competing ones St Mary s City for example early on became the center of Maryland s founding narrative of religious tolerance a view commemorated in nineteenth century celebrations and reflected even today in local museum exhibits and preserved buildings And at Point Lookout one private group has established a Confederate Memorial Park dedicated to those who died at the prison thus nurturing the Lost Cause ideology that arose in the South in the late 1800s while nearby the custodians of a 1 000 acre state park avoid controversy by largely ignoring the area s Civil War history preferring instead to concentrate on recreation and tourism an unusually popular element of which has become the recounting of ghost stories As King shows the narratives that now constitute the public memory in southern Maryland tend to overlook the region s more vexing legacies particularly those involving slavery and race Noting how even her own discipline of historical archaeology has been complicit in perpetuating old narratives King calls for research particularly archaeological research that produces new stories and counter narratives that challenge old perceptions and interpretations and thus convey a more nuanced grasp of a complicated past [The New York Times Almanac 2002](#) John Wright,2006-05-23 The New York Times Almanac 2002 is the almanac of record Drawing on the resources of the world s premier news organization it provides readers with a wealth of data about the United States and the world in a readable and more easily accessible form than other almanacs Unrivaled in scope and unsurpassed in comprehensiveness The New York Times Almanac pays careful attention to significant issues topics and developments of the day and sets them in historical context It gives the stories and the stories behind the stories The New York Times Almanac is the first choice for students journalists and researchers for anyone who needs timely accurate information about the United States and other nations around the globe The New York Times Almanac 2002 includes The first results of the 2000 Census Comprehensive coverage of all the states and every nation in the world World Series results and the most comprehensive sports section of any almanac Notable obituaries from the worlds of politics entertainment and science More information about the Internet the worldwide AIDS epidemic and world population than any other almanac The most complete coverage of environmental issues the economy and the workings of the federal government All major Academy Award winners since 1928 and the names of all Nobel Laureates and why they won and much much more [Cruising World](#) ,1993-01
