## WORKOUT CHART

**Natural Movement Training™** - We call our training philosophy Natural Movement Training (NMT). We take simple movements from everyday life and add intensity through rotation, core stabilization or resistance, or provide accessibility to exercises so that users of all fitness levels can achieve their fitness goals. This helps you to improve your performance and feel better during everyday activities.

**Anatomy of the Perfect Pushup®** - Elevated handles provide a comfortable placement for hands and neutral grip. Rotation creates the proper chain reaction in the arm/shoulder complex and through the trunk. This places greater demands on core, shoulder and arm muscles and results in a more intense exercise.

### Regular Position

- Hands slightly wider than shoulder width apart
- Neck, back and legs in alignment
- Head neutral, ears remain above shoulders
- Contract abdominals, pull navel into spine

### Wide Position

- Note: Rotation is opposite of Regular Position
- Hands placed two hand widths wider than shoulders
  - Body alignment - same rules apply as Regular Position
  - Down position - elbows point straight out

### Close Position

- Hands should be directly below shoulders
- Body alignment - same rules apply as Regular Position
- Elbows go straight back as you rotate outward to the down position

### Knee Modification

Less Intensity

- Feet remain off the floor
- Hips in line with thighs
- Contract abs - pull navel into spine
- Back straight with head and neck over shoulders
- Include with Regular, Wide and Close Positions in your Workouts

### Chair Modification

More Intensity

- Use stable, stationary chair (e.g. on a level non-slip surface)
- Set hand position first

- Raise one foot at a time onto chair
- Slowly lower chest to floor
