**A Nervous State** Nancy Rose Hunt,2015-12-30 In *A Nervous State* Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State. Discarding catastrophe as narrative form she instead brings alive a history of colonial nervousness. This mood suffused medical investigations, security operations and vernacular healing movements. With a heuristic of two colonial states, one nervous, one biopolitical, the analysis alternates between medical research into birthrates, gonorrhoea and childlessness and the securitization of subaltern therapeutic insurgencies. By the time of Belgian Congo's famed postwar developmentalist schemes, a shining infertility clinic stood near a bleak penal colony, both sited where a notorious Leopoldian rubber company once enabled rape and mutilation. Hunt's history bursts with layers of perceptibility and song, conveying everyday surfaces and daydreams of subalterns and colonials alike. Congolese endured and evaded forced labor and medical and security screening. Quick-witted they stirred unease through healing, wonder, memory and dance. This capacious medical history sheds light on Congolese sexual and musical economies, on practices of distraction, urbanity and hedonism. Drawing on theoretical concepts from Georges Canguilhem, Georges Balandier and Gaston Bachelard, Hunt provides a bold new framework for teasing out the complexities of colonial history. *Therapeutic Exercise* Carolyn Kisner, Lynn Allen Colby, John Borstad,2017-10-18 Here is all the guidance you need to customize interventions for individuals with movement dysfunction. You'll find the perfect balance of theory and clinical technique in depth discussions of the principles of therapeutic exercise and manual therapy and the most up-to-date exercise and management guidelines.
