**ELT in Asia in the Digital Era: Global Citizenship and Identity** Suwarsih Madya, Fuad Hamied, Willy A. Renandya, Christine Coombe, Yazid Basthomi, 2018-06-27 This proceedings book captures a wide range of timely themes for readers to be able to foresee the digital era's impact on English teaching in non-English speaking countries. English used in the global environment, the frequent mobile communication and the use of AI-based translators are bringing about dramatic changes in our English language learning and teaching. Who can provide us the wisdom to know what to do? Those scholars going through these complex environmental changes. A collection of puzzle pieces may bring us a better contour for the future than a perfectly edited book. It's indeed a pleasure reading these insightful pieces to gain wisdom for the future of ELT practices in global contexts.

**Monitoring Educational Performance in the Caribbean** Emanuela Di Gropello, 2003-01-01 This study represents a first attempt of providing a comprehensive quantification of educational outcomes in the Caribbean region. Its main objectives are a) to define a set of operationally relevant education indicators b) to provide a database of comparable education indicators in Caribbean countries where data is available namely Belize, Dominica, Dominican Republic, Grenada, Guyana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, and Trinidad and Tobago and c) to propose methods on how the common set of indicators can be used for analyses of the education sectors. This exercise is all the more important within the framework of the current Education For All (EFA) and Millennium Development Goals (MDGs) initiatives which require the identification and monitoring of relevant indicators to establish where the countries stand in relation to the target of universal primary education. After a systematic review of educational indicators in coverage, efficiency and quality which leads to specific recommendations on the type of indicator relevant to operational diagnostics of the education sectors, the study provides a detailed review of the Caribbean status in producing education indicators and demonstrates how a new database can be used to depict where the education sectors stand. Building on these methods and findings, its final section presents a set of specific recommendations to the Caribbean countries on how to improve the diagnostics of their education sectors.

**Encyclopedia of Criminal Activities and the Deep Web** Khosrow-Pour D.B.A., Mehdi, 2020-02-01 As society continues to rely heavily on technological tools for facilitating business, e-commerce, banking and communication among other applications, there has been a significant rise in criminals seeking to exploit these tools for their nefarious gain. Countries all

over the world are seeing substantial increases in identity theft and cyberattacks as well as illicit transactions including drug trafficking and human trafficking being made through the dark web internet Sex offenders and murderers explore unconventional methods of finding and contacting their victims through Facebook Instagram popular dating sites etc while pedophiles rely on these channels to obtain information and photographs of children which are shared on hidden community sites As criminals continue to harness technological advancements that are outpacing legal and ethical standards law enforcement and government officials are faced with the challenge of devising new and alternative strategies to identify and apprehend criminals to preserve the safety of society The Encyclopedia of Criminal Activities and the Deep Web is a three volume set that includes comprehensive articles covering multidisciplinary research and expert insights provided by hundreds of leading researchers from 30 countries including the United States the United Kingdom Australia New Zealand Germany Finland South Korea Malaysia and more This comprehensive encyclopedia provides the most diverse findings and new methodologies for monitoring and regulating the use of online tools as well as hidden areas of the internet including the deep and dark web Highlighting a wide range of topics such as cyberbullying online hate speech and hacktivism this book will offer strategies for the prediction and prevention of online criminal activity and examine methods for safeguarding internet users and their data from being tracked or stalked Due to the techniques and extensive knowledge discussed in this publication it is an invaluable addition for academic and corporate libraries as well as a critical resource for policy makers law enforcement officials forensic scientists criminologists sociologists victim advocates cybersecurity analysts lawmakers government officials industry professionals academicians researchers and students within this field of study **Journal of the National Institute of Information and Communications Technology** ,2005 **Index Medicus** ,2001
