Delay Analysis In Construction Contracts:

Delay Analysis in Construction Contracts P. John Keane, Anthony F. Caletka, 2015-06-29 The most significant unanticipated costs on many construction projects are the financial impacts associated with delay and disruption to the works. Assessing these and establishing a causal link from each delay event to its effect contractual liability and the damages experienced as a direct result of each event can be difficult and complex. This book is a practical guide to the process of delay analysis and includes an in depth review of the primary methods of delay analysis together with the assumptions that underlie the precise calculations required in any quantitative delay analysis. The techniques discussed can be used on projects of any size under all forms of construction contract both domestic and international. The authors discuss not only delay analysis techniques but also their appropriateness under given circumstances demonstrating how combined approaches may be applied where necessary. They also consider problematic issues including who owns the float concurrent delay early completion programmes and disruption. The book has been brought fully up to date including references to the latest publications from the CIOB AACEI and SCL as well as current case law. Broad in scope the book discusses the different delay analysis approaches likely to be encountered on national and international projects and features practical worked examples and case studies demonstrating the techniques commonly used by experienced practitioners. This is an invaluable resource to programmers and schedulers delay analysts contractors architects engineers and surveyors. It will also be of interest to clients professional advisors managing extension of time or delay claims as well as construction lawyers who require a better understanding of the underlying assumptions on which many quantitative delay analyses are based. Reviews of First Edition John Keane and Anthony Caletka are pukka analysts in that tricky area of delays programming and extension of time. I highly recommend their book *Delay Analysis in Construction Contracts*. Buy the book *Building Magazine* February 2009. The book's stated purpose is to provide a practical guide for those interested in schedule delay analysis. It provides a good in depth review of the most common delay analysis techniques. An excellent book full of practical tips for the reader and very timely in its publication. It is well worth the cost and a good read for anyone involved in schedule delay analysis. *Cost Engineering* February 2009. It achieves in spades its stated aim of being a practical guide for contractors contract administrators programmers and delay analysts as well as construction lawyers who require a better understanding of the underlying assumptions on which many quantitative delay analyses are based. *Construction Law Journal* 2009. *Delay Analysis in Construction Contracts* P. Taxmann's Construction Arbitration - Delays, Disputes & Resolution | 2021 Edition Dr. S.B. Saraswat, 2020-12-14. This book has been conceived to address a particularly pressing aspect of disputes in construction projects. It provides a practical guide, follows a very systematic approach to dispute resolution through mediation, conciliation, and arbitration under construction contracts. It covers all aspects of the causes of delay, including coverage of delay analysis reports, the various disputes, and the arbitration process for satisfactory, faster resolution. This book is based on issues relating to major EPC projects of process industries such as steel, petrochemical, power plants, etc. It also covers issues relating to the infrastructure sector in private and public sectors. This book will be useful for persons involved in construction arbitration: lawyers, project professionals, arbitrators, students, and academicians. The Present Publications is the 1st Edition, incorporating analysis of problems of the construction sector and their impact, along with analysis of 10 case studies while attempting to cull out the necessary principles involved in the execution of the projects. The key features of this book are as follows: In the introduction, the current scenario of the construction sector has been discussed along with the problems faced by them and its impact on the country's growth, GDP, Delay Analysis Report. Project finalization/execution has also been briefly addressed along with a detailed description of possible reasons of conflicts and disputes in large projects. It also includes a Delay Analysis Report (DAR) detailing all the delays which take place in

construction projects Preparation of Claims with Examples Preparation of claims and counter claims has been elucidated with examples along with organizing the evidence for construction arbitration Use of Alternate Dispute Resolution ADR mechanism for dispute resolution has been discussed Case Studies are provided that compare the project execution methodology concerning private and public sectors and the outcomes of projects Simple Lucid Presentation of Text Technical contractual commercial reasons for delay in projects have been described in simple language which can be understood by lawyers arbitrators and laymen working in the construction industry The contents of the book are as follows Impact of disputes in construction sector Ideal needs of successful project execution Overview of projects and construction sector in India Types of construction contracts Traditional Projects execution in India Status General process of finalization of EPC contract for large projects Stakeholders in EPC project Analysis and comparison of salient features of different EPC contracts Critical examination comparison and review of major clauses of EPC project contracts Brutal global impact of COVID 19 Force majeure in Indian projects due to COVID 19 Project monitoring control Pre requisites for successful completion of an EPC project Case studies of project execution detailing the methodology of execution elements of delay and potentialities of disputes in projects Conclusions drawn from the case studies of project execution Common clauses of delays in EPC projects Preparation of project Delay Reports Delay analyzing techniques in construction projects Delay in construction contracts A Legal View Construction dispute resolution as per Alternate Dispute Resolution mechanism Settlement of construction dispute through Negotiation Settlement of construction dispute through Mediation Settlement of construction dispute through Conciliation Settlement of construction dispute through Arbitration Indian Arbitration and Conciliation Amendment Act 2019 a reflection Claim in a construction project Need for evidence in construction arbitration Reviewed by Justice Dipak Mishra Former Chief Justice of India After reading the book I am tempted to say that though it focuses on a very prosaic subject yet there is something in it that makes it interesting for the readers And any reader can find that something only after studying the book It is a must read for the students practitioners and academicians involved in the field I so recommend as the author is consistently guided by the motto quality speaks for itself The author's intention is to assist and educate I have deliberately used both the words because I am of the view that this book should be read by some with the vision of an Argus eyed personality and some should study with humility The author deals with many facets with admirable precision One may consider his delineation with regard to the conception of delay He has commandedly adverted to Common Causes of delay in EPC Projects I am certain that anyone arguing a matter before a Tribunal or Court will be extremely benefitted The author's case study has its own impact and reaffirms the old saying Example is better than Precept He believes in the concept successful project execution is more than a written piece of contract This statement by Dr Saraswat deserves to be a quotation Reviewed by Justice B B Srikrishna Former Judge Supreme Court of India Dr S B Saraswat is a technocrat with extensive experience of four decades in public as well as private sector industries in India and abroad He was actively

involved in successful execution of many large projects in Steel Power and Petroleum sectors His long experience in their execution has exposed him to various kinds of disputes faced as client and as contractor This book is the result of his rich experience of dispute resolution by arbitration in the construction industry and reflects his insights on aspects of delays disputes their resolution Apart from general discussion of the arbitral mechanics in such disputes the book focusses on the nature of construction contracts the likely pitfalls therein the force majeure clauses in such contracts project control and monitoring common causes of delay in EPC contracts delay analysis techniques techniques of ADR nature of claims their submission and the evidence required to substantiate the claims in light of the legal provisions of the Arbitration and Conciliation Act 1996 and other applicable laws Reviewed by Justice Deepak Verma Former Judge Supreme Court of India This book by Dr S B Saraswat encapsulates the following The problems of the construction sector and their impact has been analyzed in detail First it has been advised that disputes should be resolved mutually among stakeholders failing which mediation and conciliation should be adopted Procedures for the same have been described in the book It is a fact that large construction projects in India are invariably delayed due to a variety of reasons This book contains all the possible reasons for the delay in the project Further the book also spells out an action plan to avoid such delays The book has handled the delay analysis through various delay techniques normally adopted as a standard practice Delay in the projects has been described in a comprehensible manner that can be easily understood by lawyers arbitrators and laymen working in the construction industry The book also analyses 10 ten case studies while attempting to cull out the necessary principles involved in the execution of the projects Preparation of claims has been dealt with in the book and explained with suitable examples Utility of evidences to substantiate the claims have been incorporated The book discusses ADR techniques like Negotiation Mediation Conciliation and Arbitration to resolve construction disputes Reviewed by Justice A K Sikri Former Judge Supreme Court of India Understanding the need to have some authentic book to guide and help all the stakeholders Dr S B Saraswat has laboured to produce the book at hand which specifically takes care of issues relating to construction arbitration The three major elements in this field as mentioned above viz delays in such projects nature of disputes and the resolution thereof through arbitration are the themes which are very deftly articulated and presented in a manner which can easily be absorbed by the readers A distinguished feature of the book is that the scope is not confined to use of ADR mechanisms for dispute resolution which includes mediation as well as arbitration but contains an in depth analysis into the causes leading to such disputes This becomes important to ensure Dispute Avoidance wherever possible In case of disputes the book acts as a helpful guide for the disputants in the manner in which claims should be preferred or the defences be offered It also guides the stakeholders the manner in which evidence needs to be organised or supporting the claims or defending the claims
